

Somatic mutations in all_samples

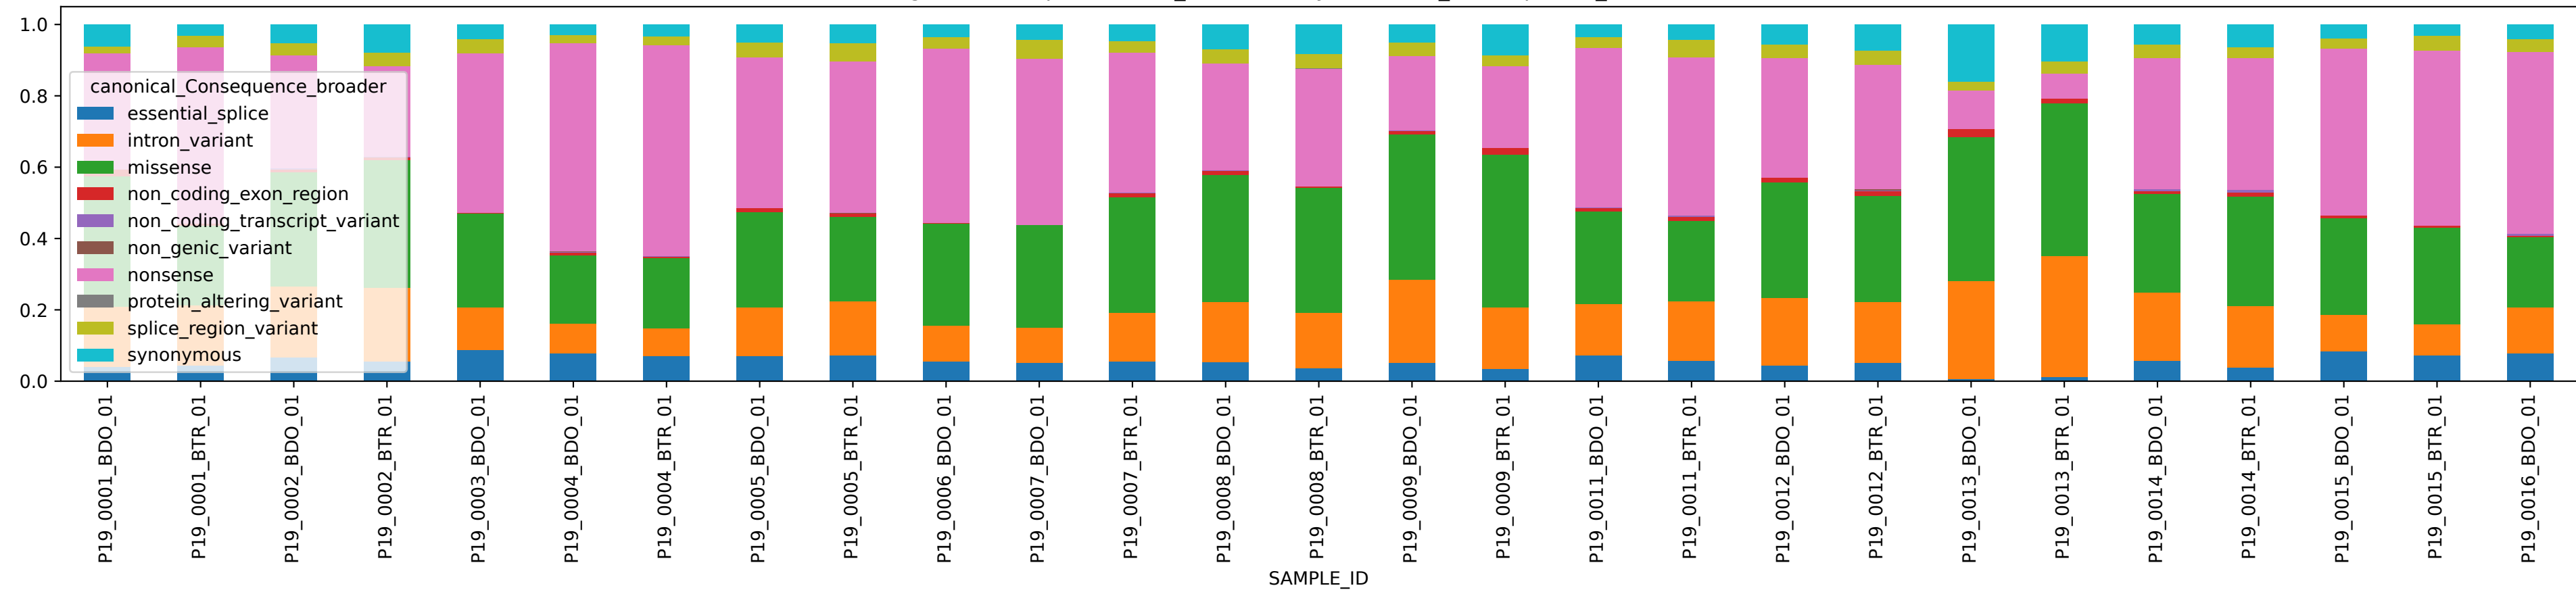

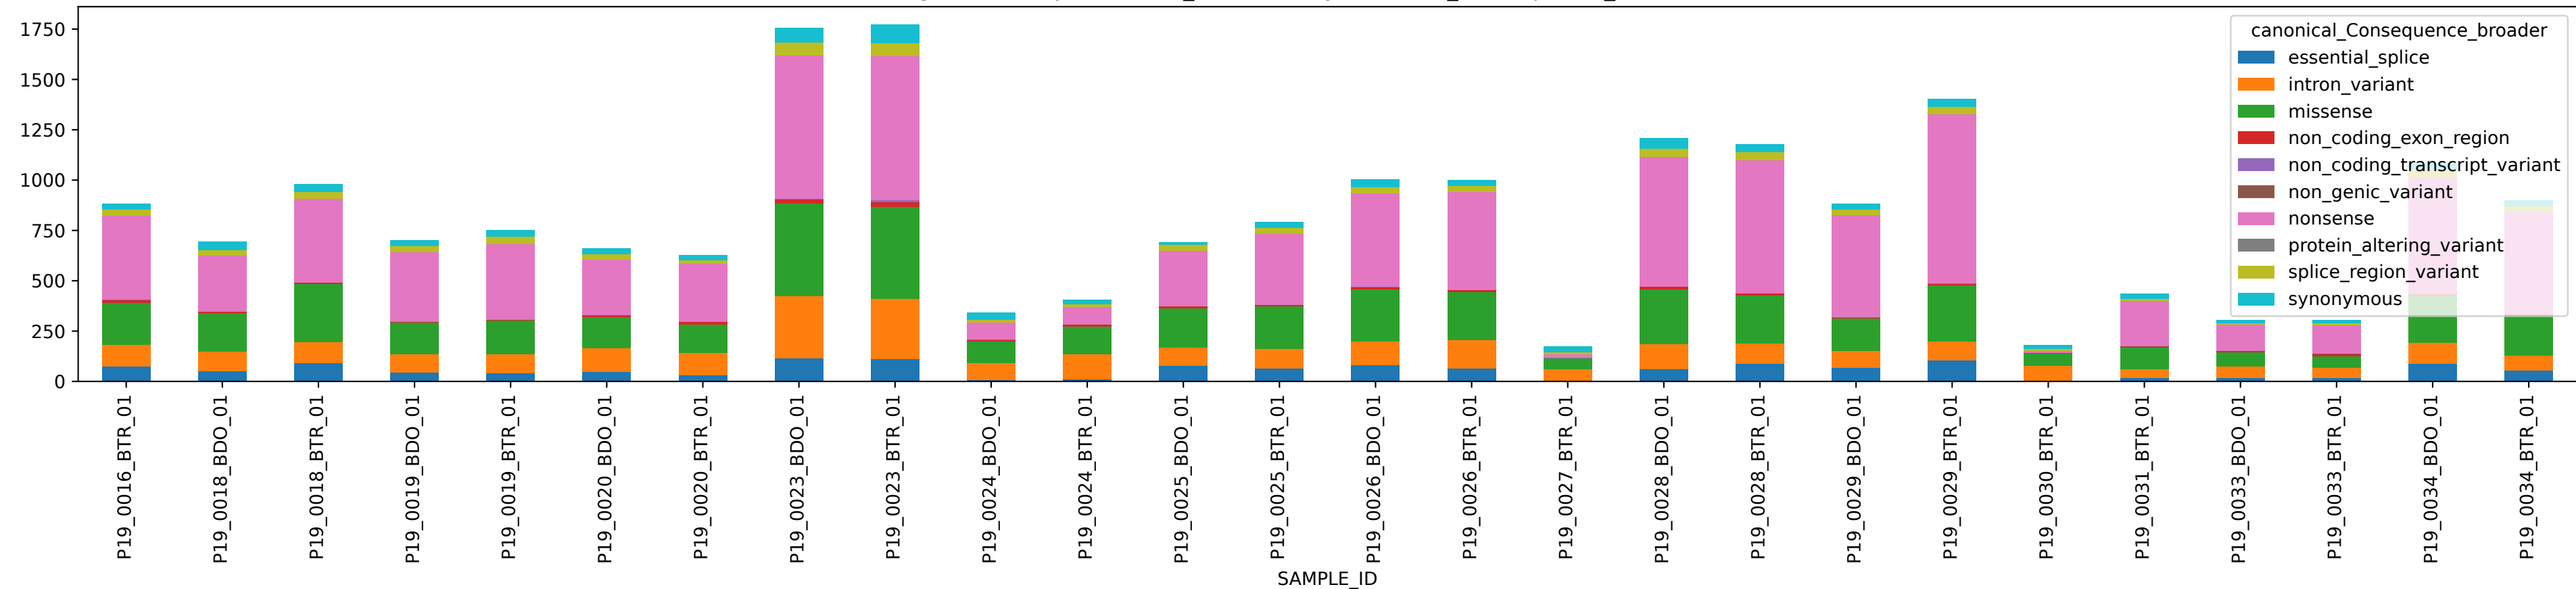

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadener (Plot 1/3)

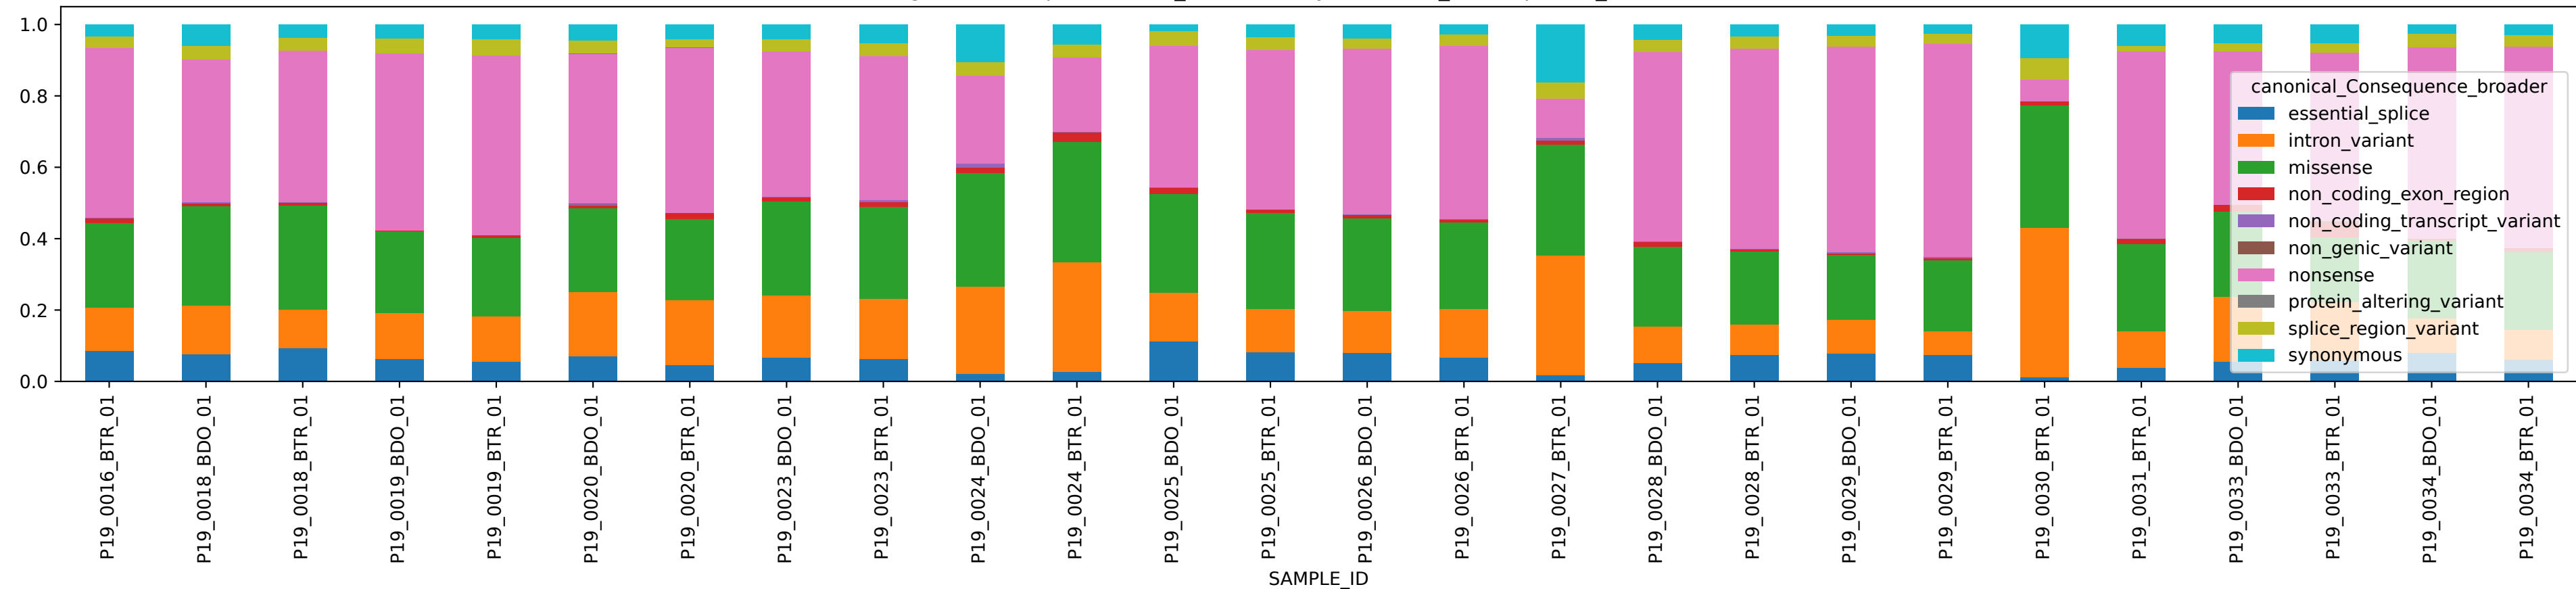

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadier (Plot 1/3)

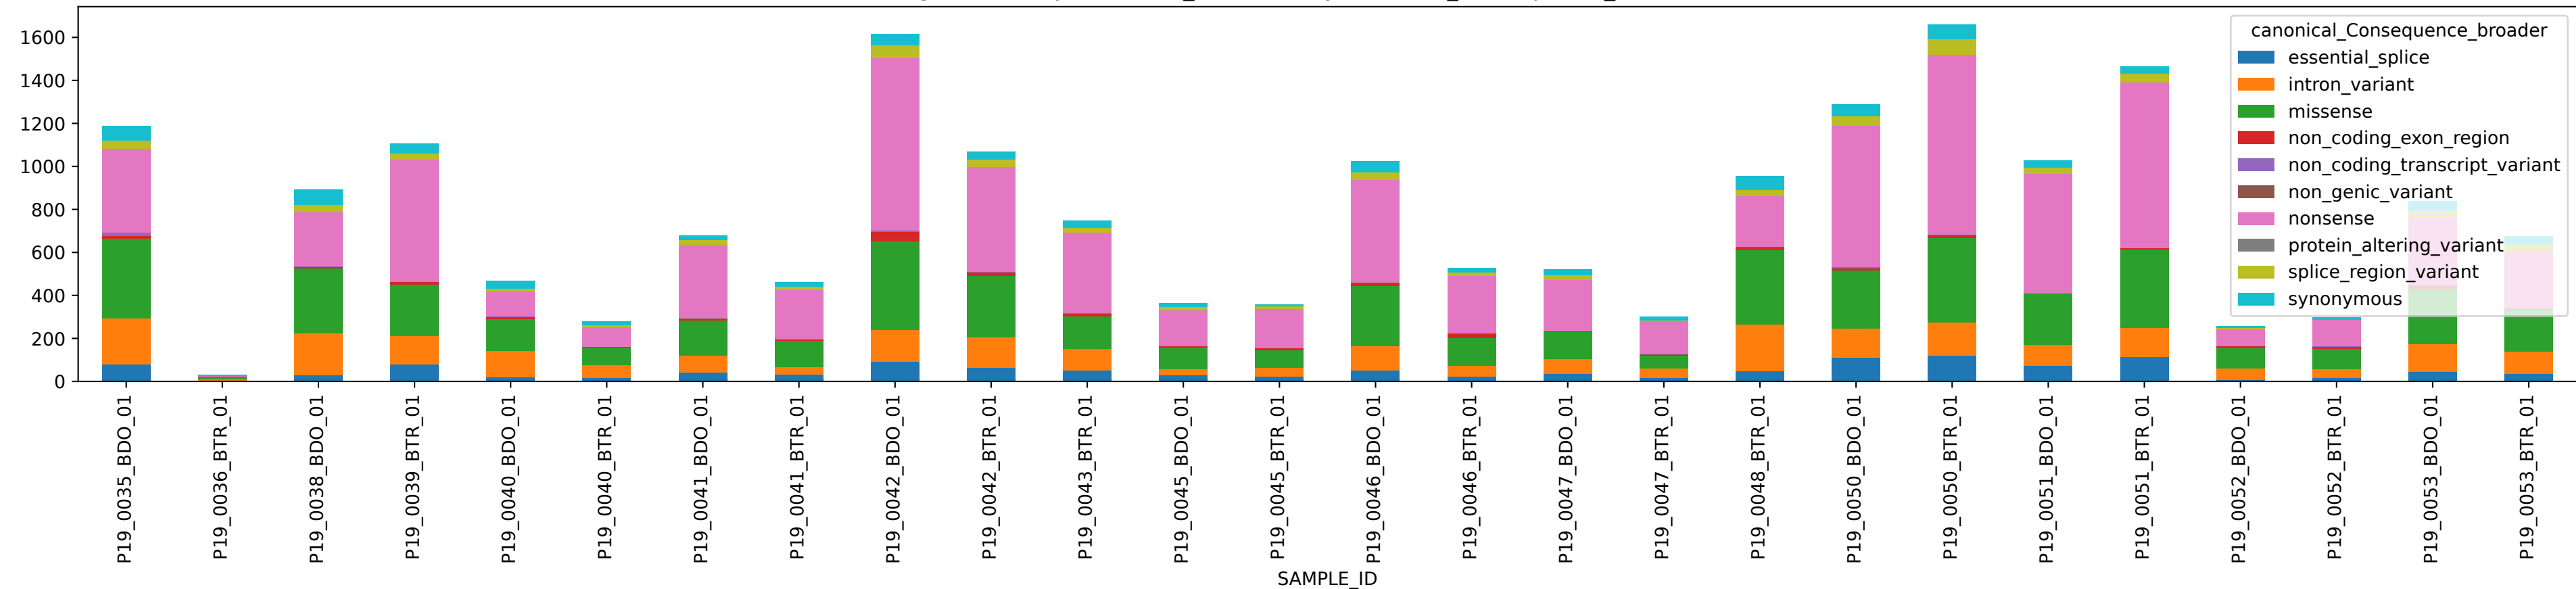

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadener (Plot 2/3)

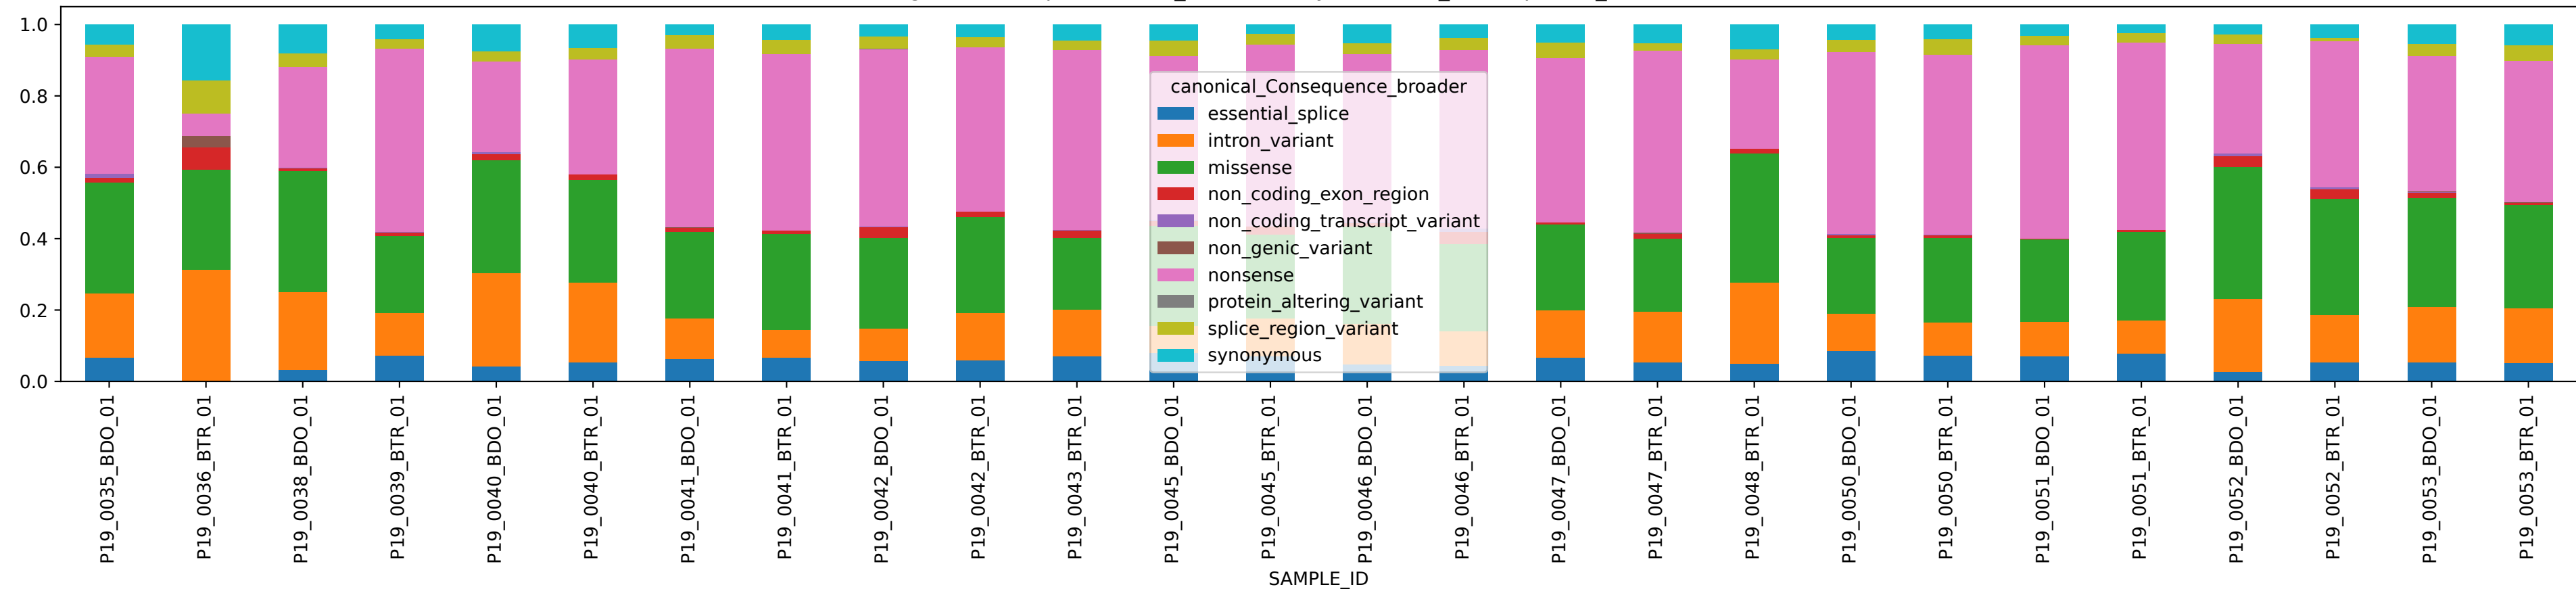

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadler (Plot 2/3)

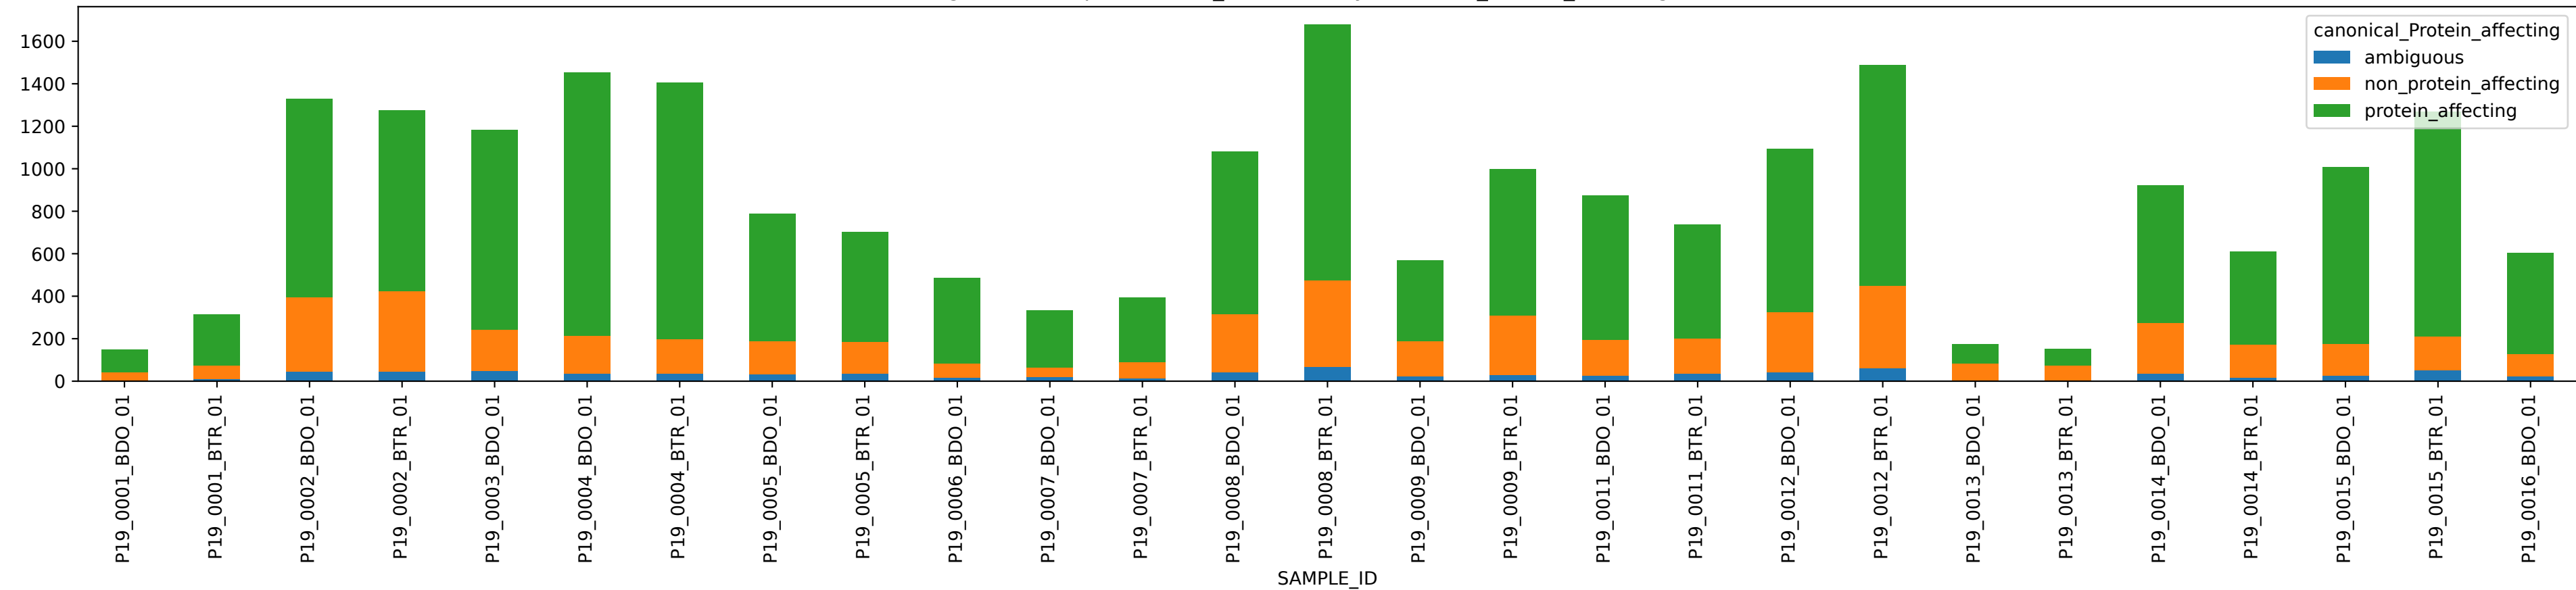

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadener (Plot 3/3)

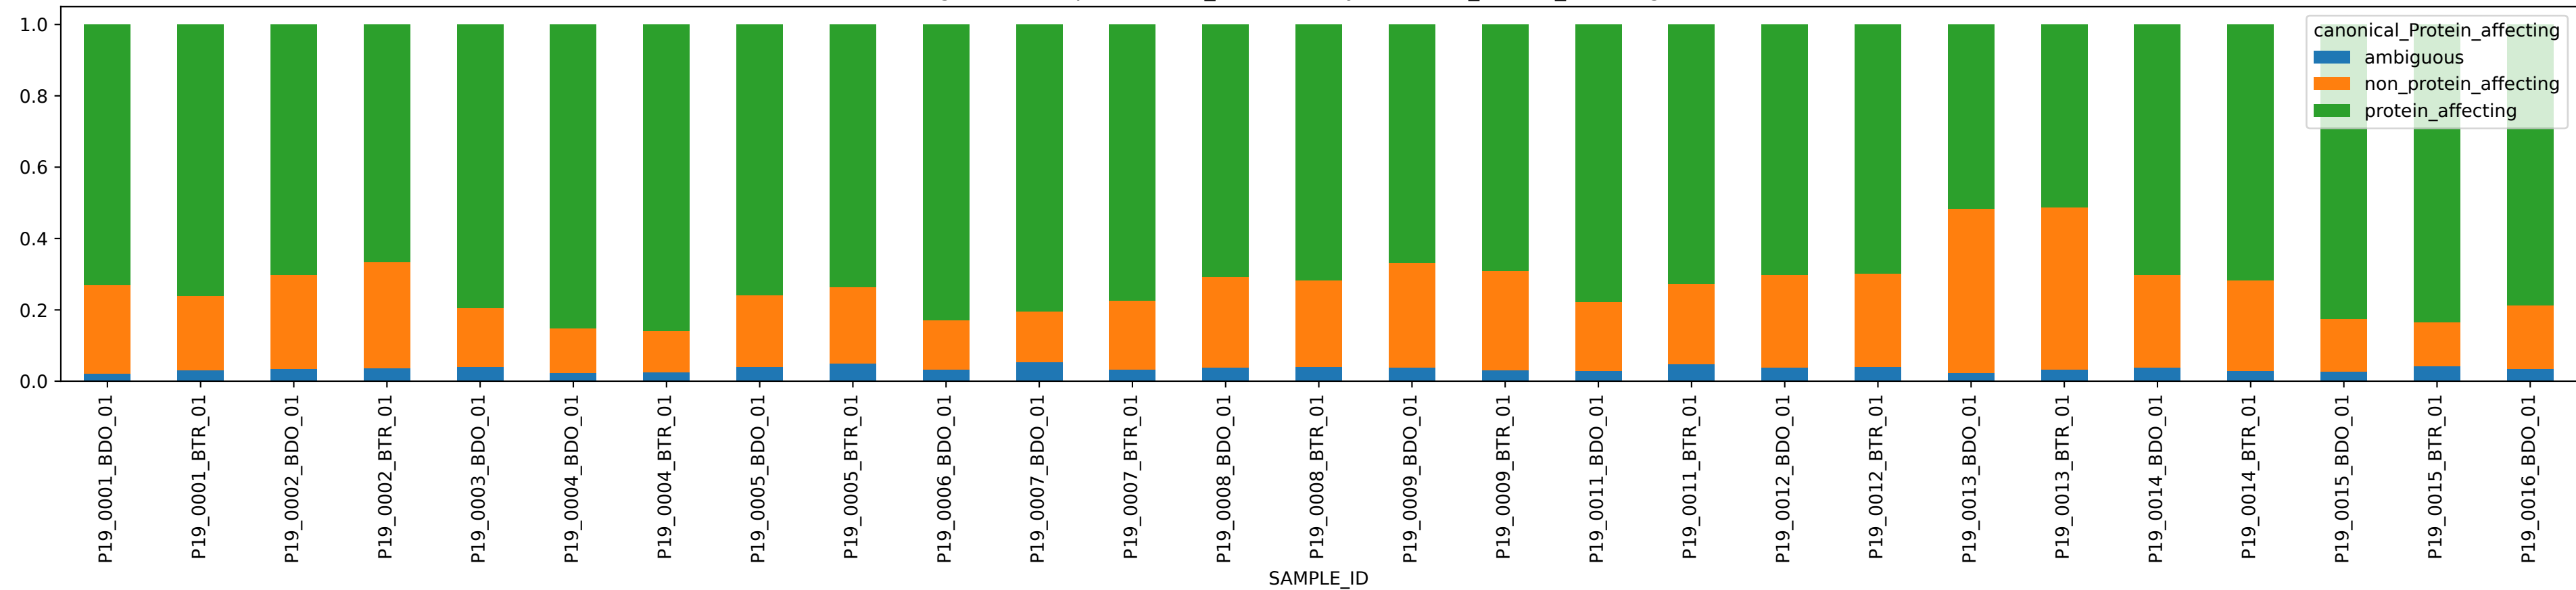

Plotting mutations per SAMPLE_ID colored by canonical_Consequence_broadener (Plot 3/3)

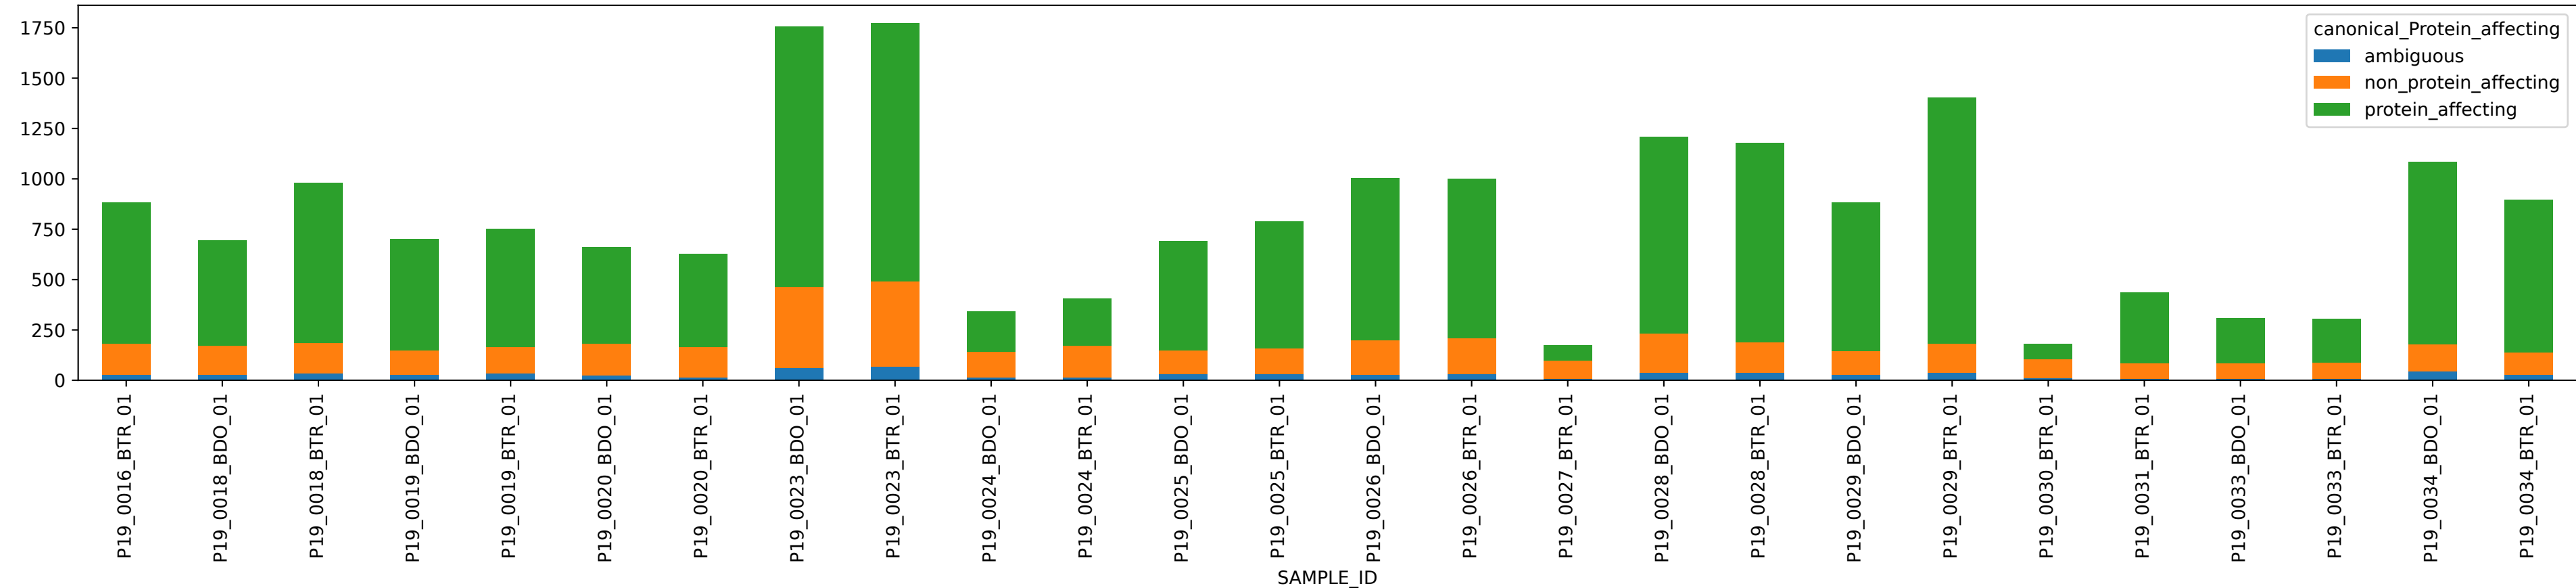

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 1/3)

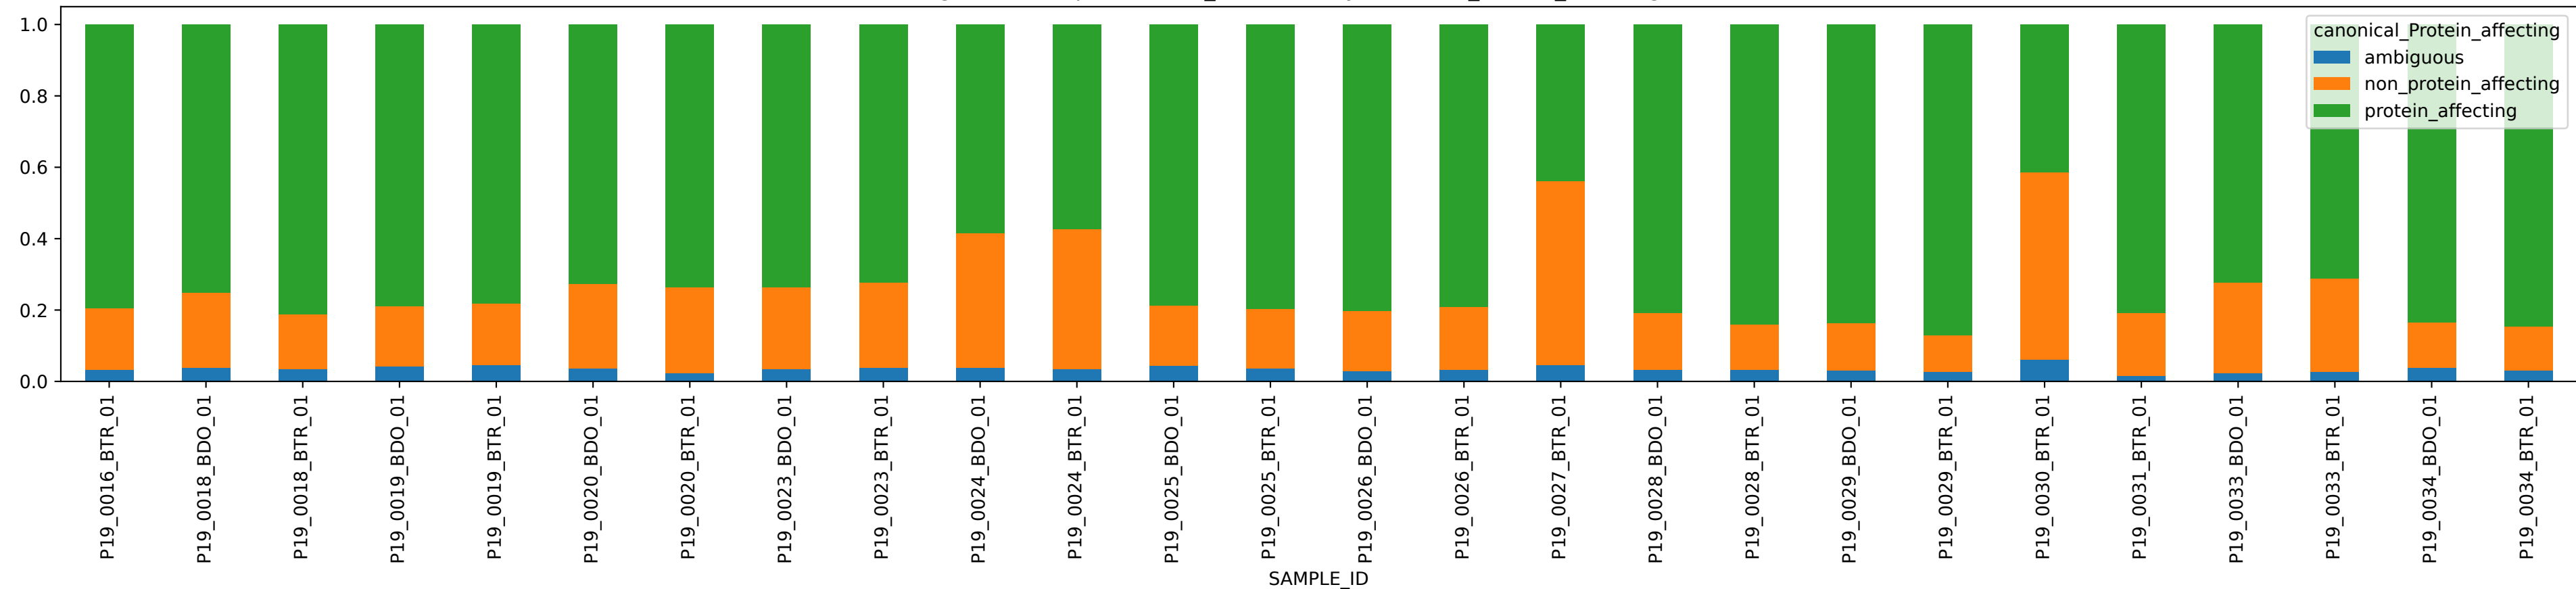

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 1/3)

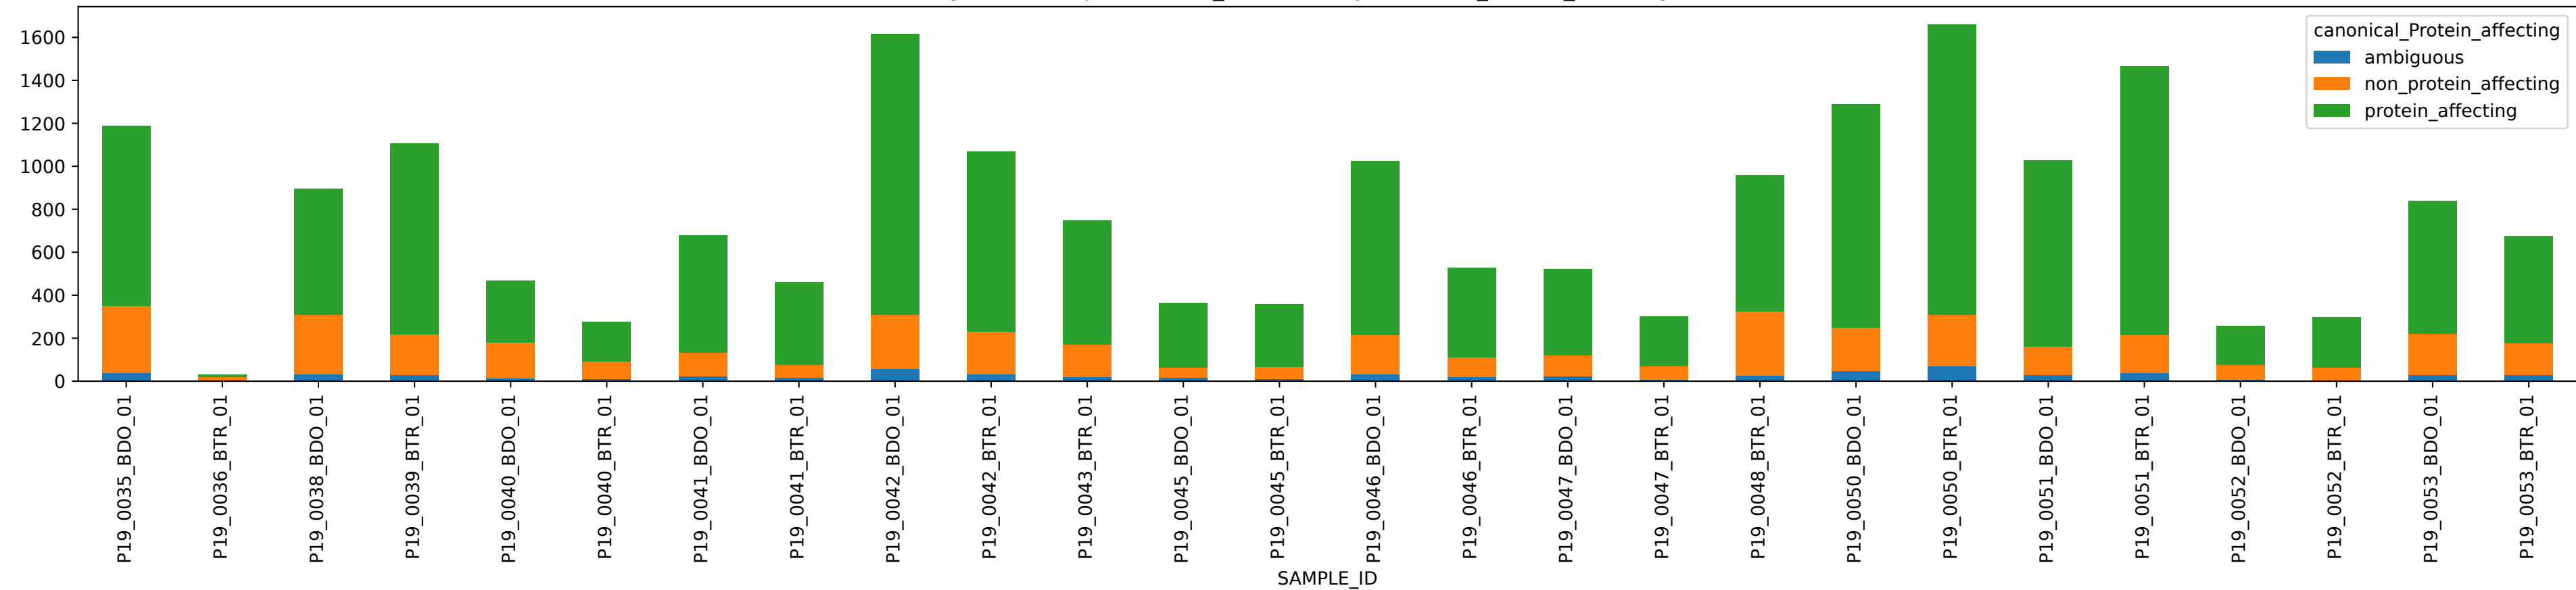

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 2/3)

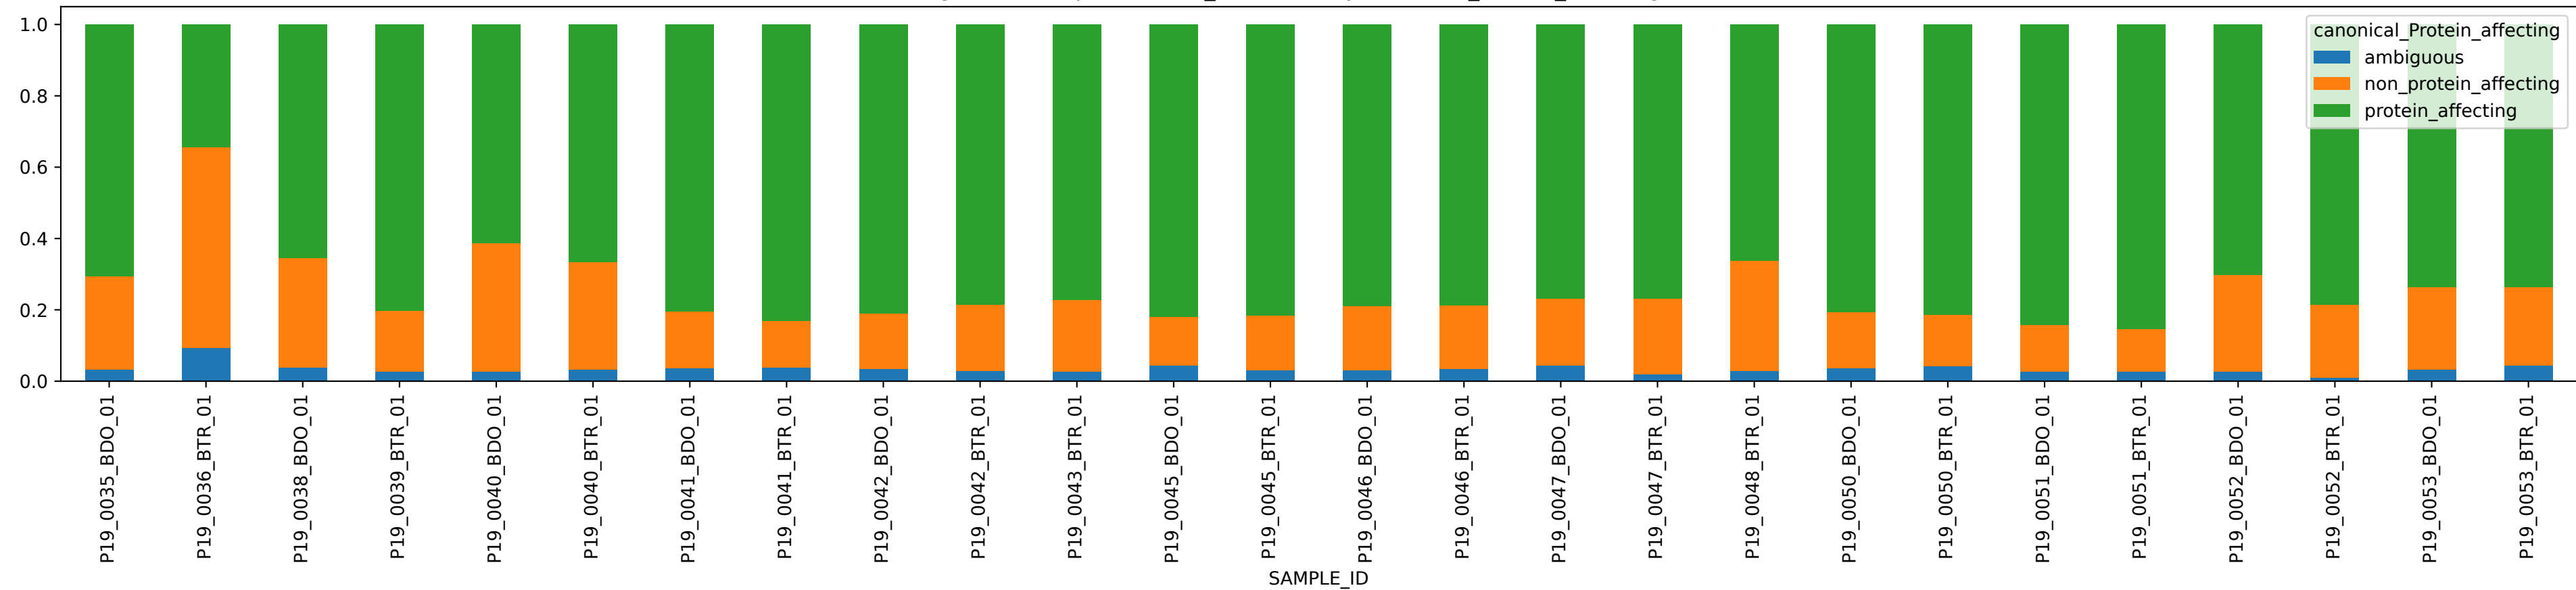

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 2/3)

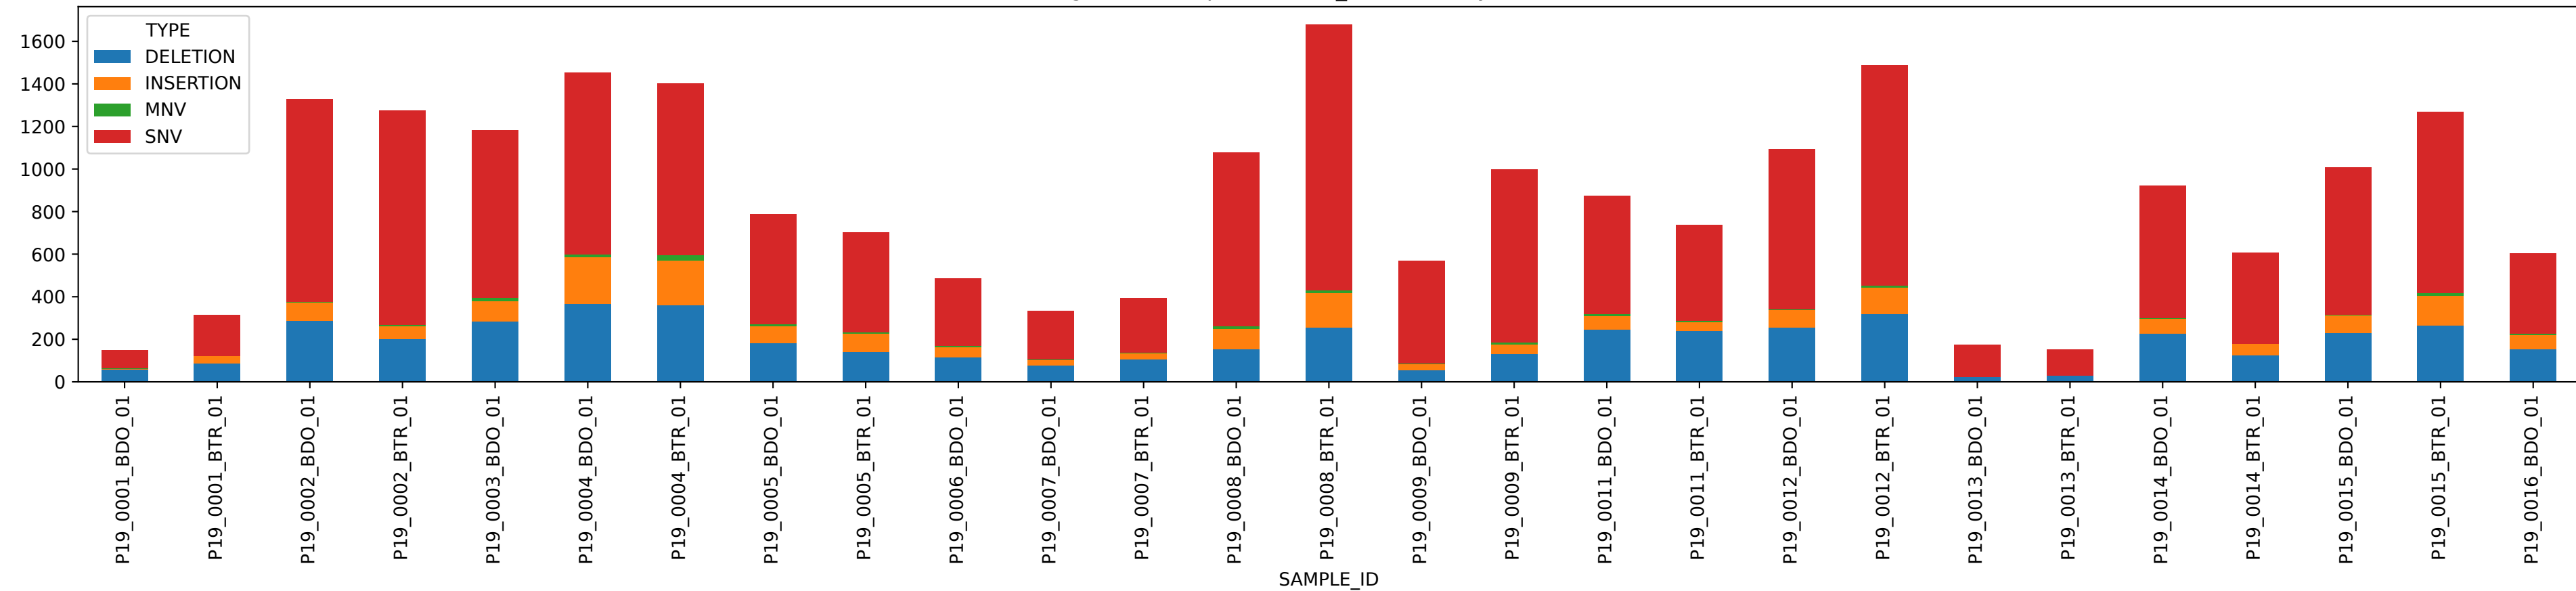

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 3/3)

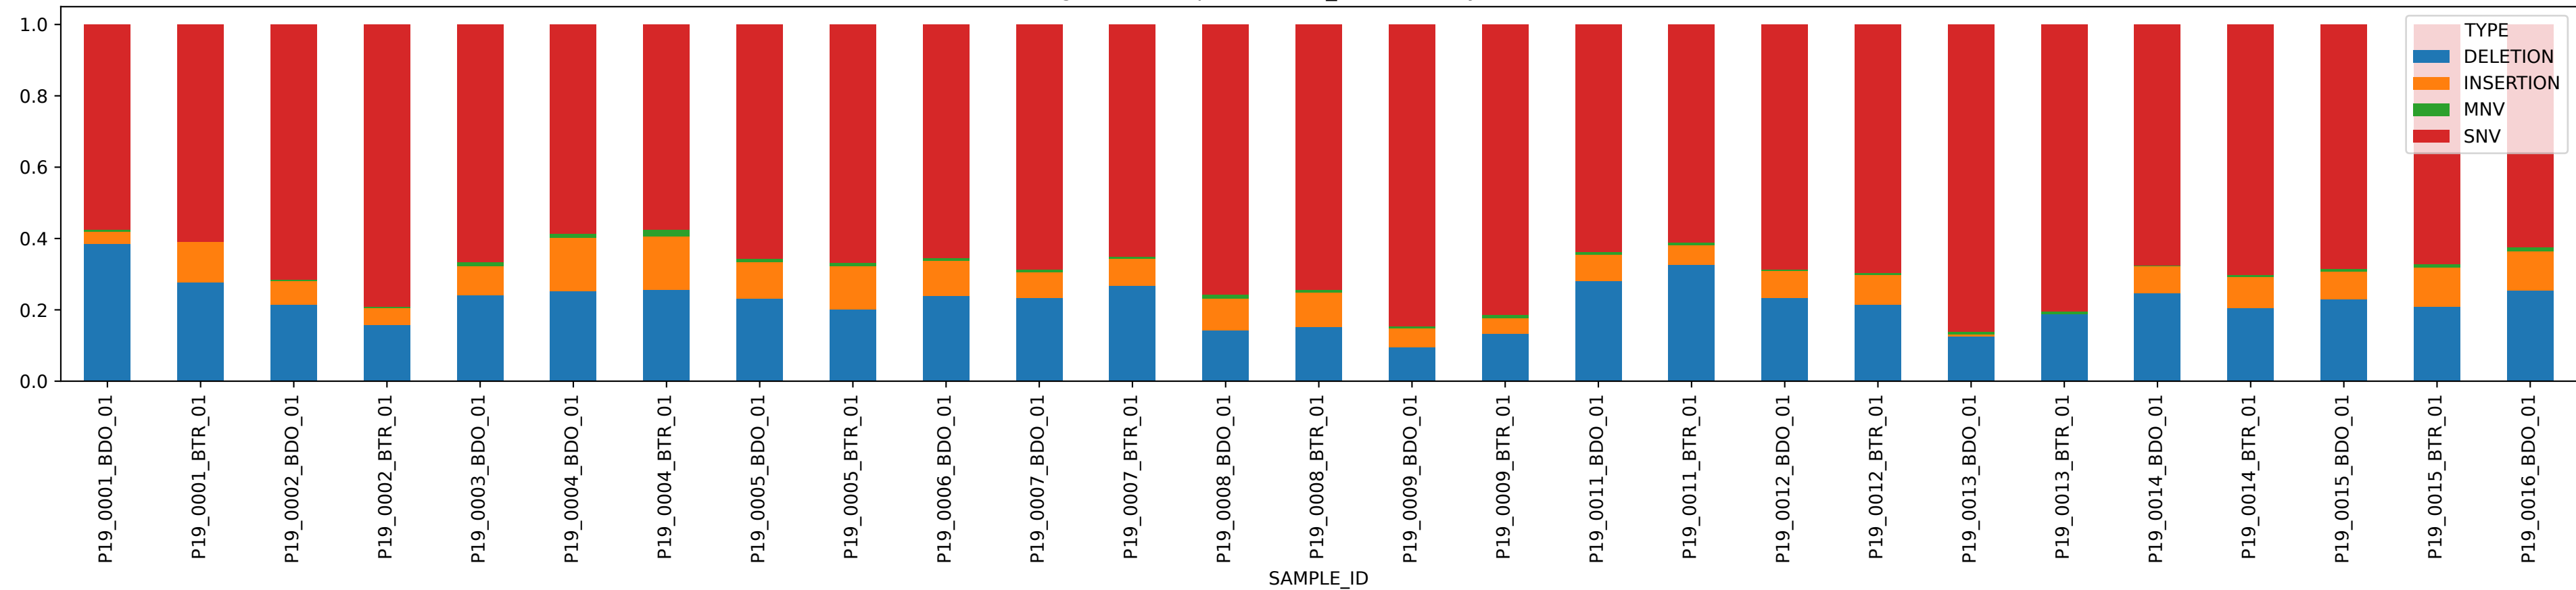

Plotting mutations per SAMPLE_ID colored by canonical_Protein_affecting (Plot 3/3)

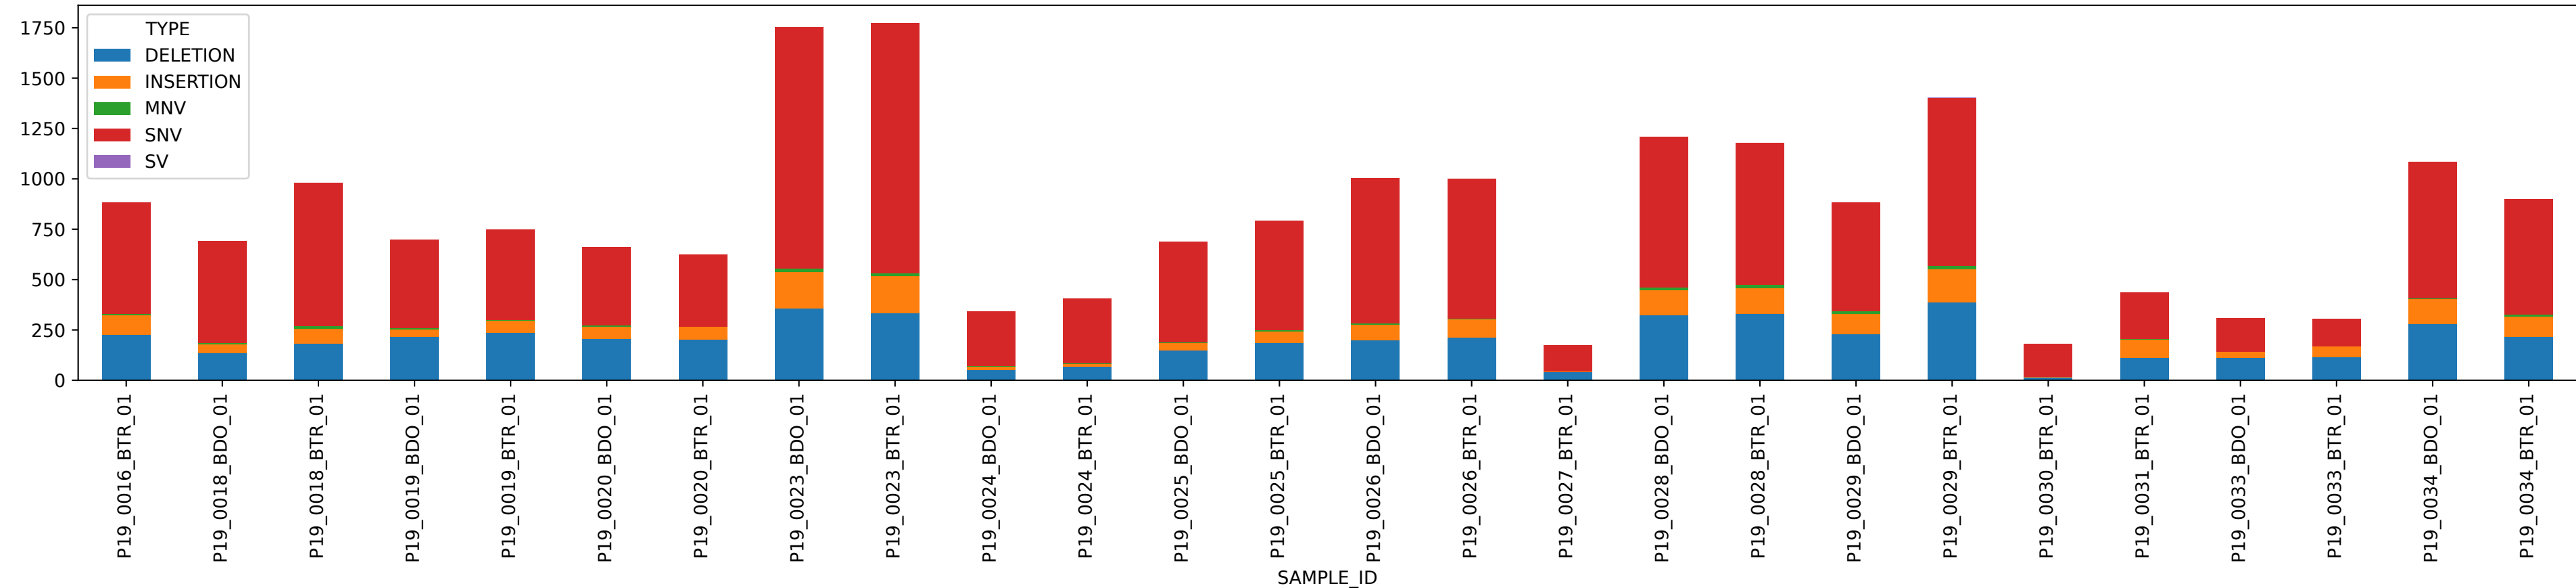

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 1/3)

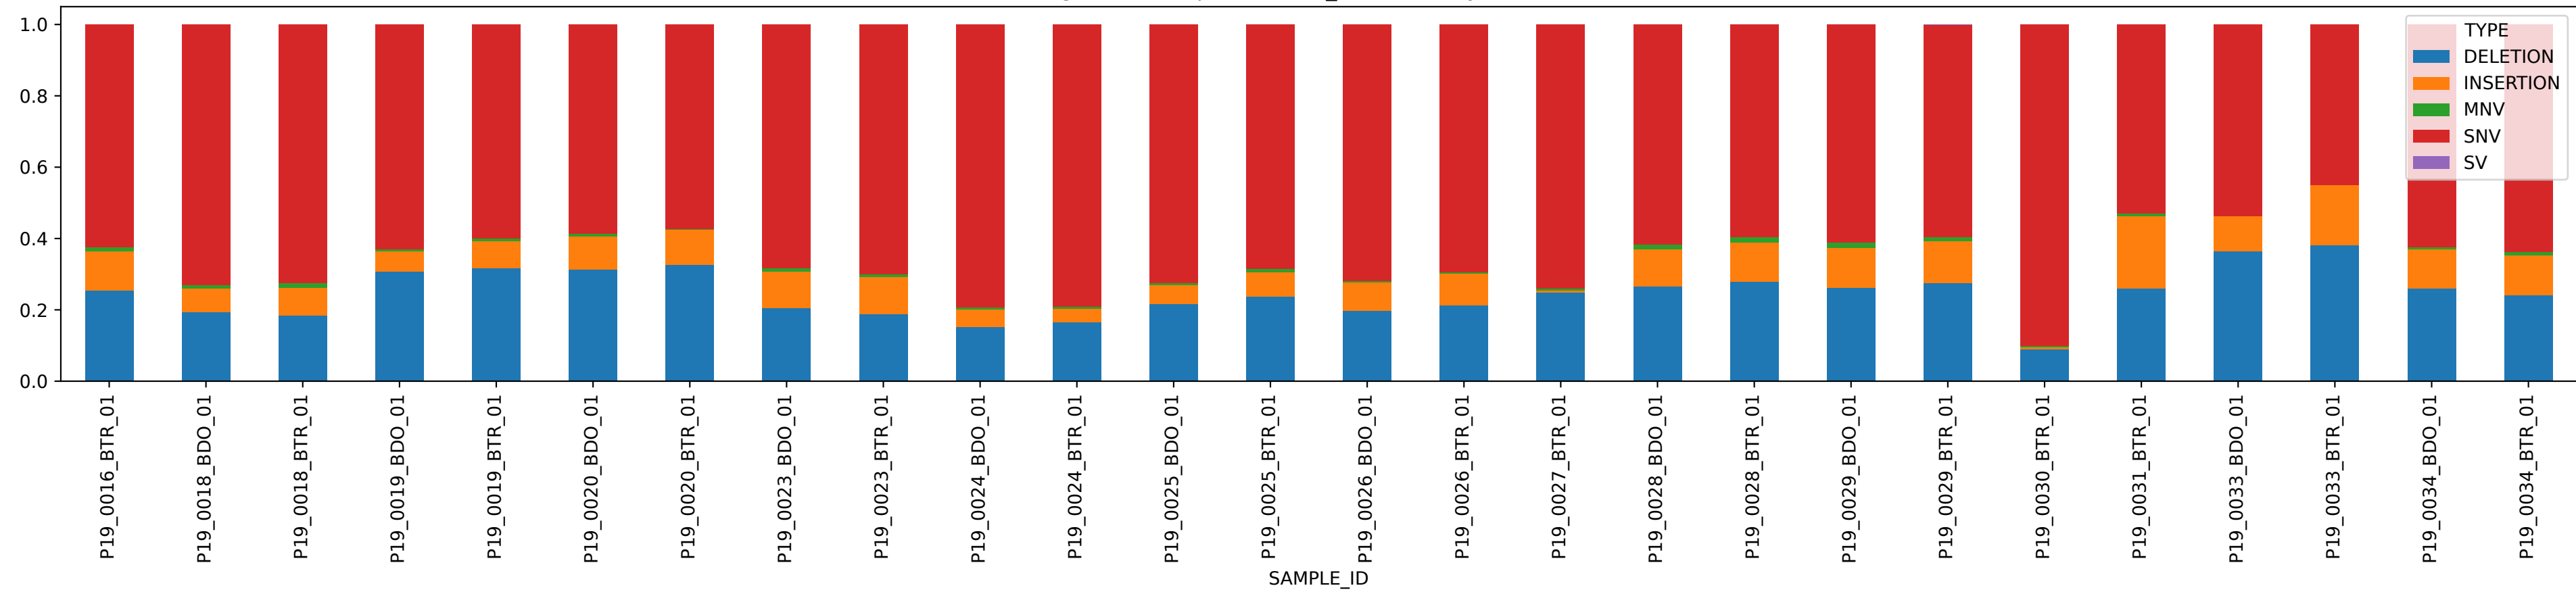

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 1/3)

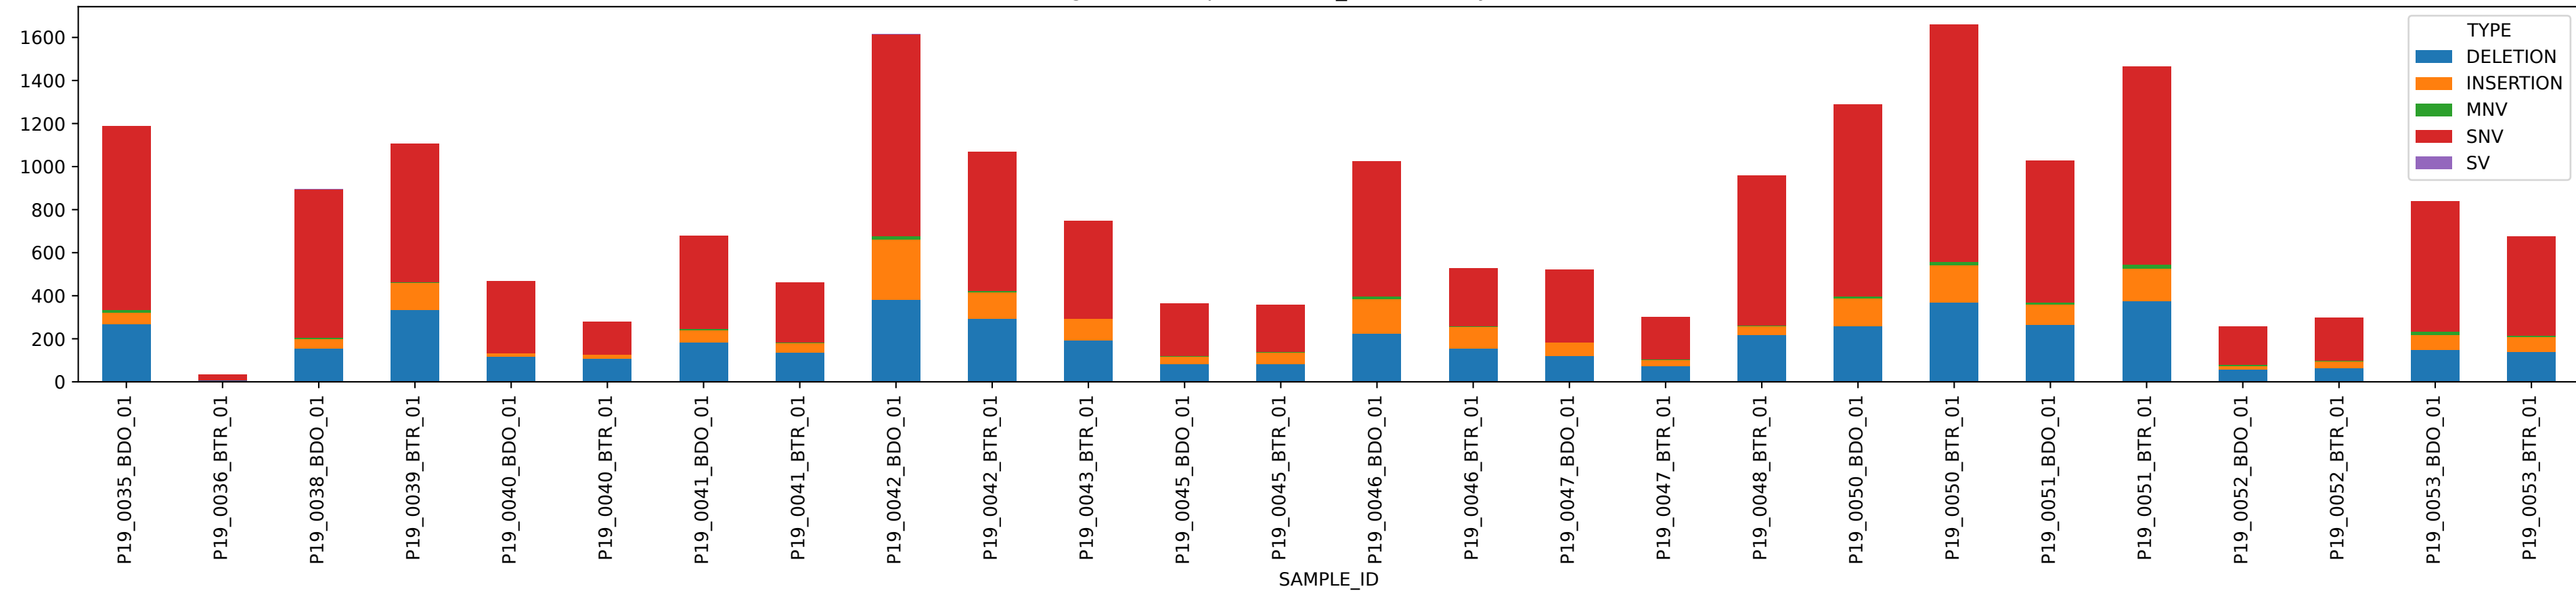

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 2/3)

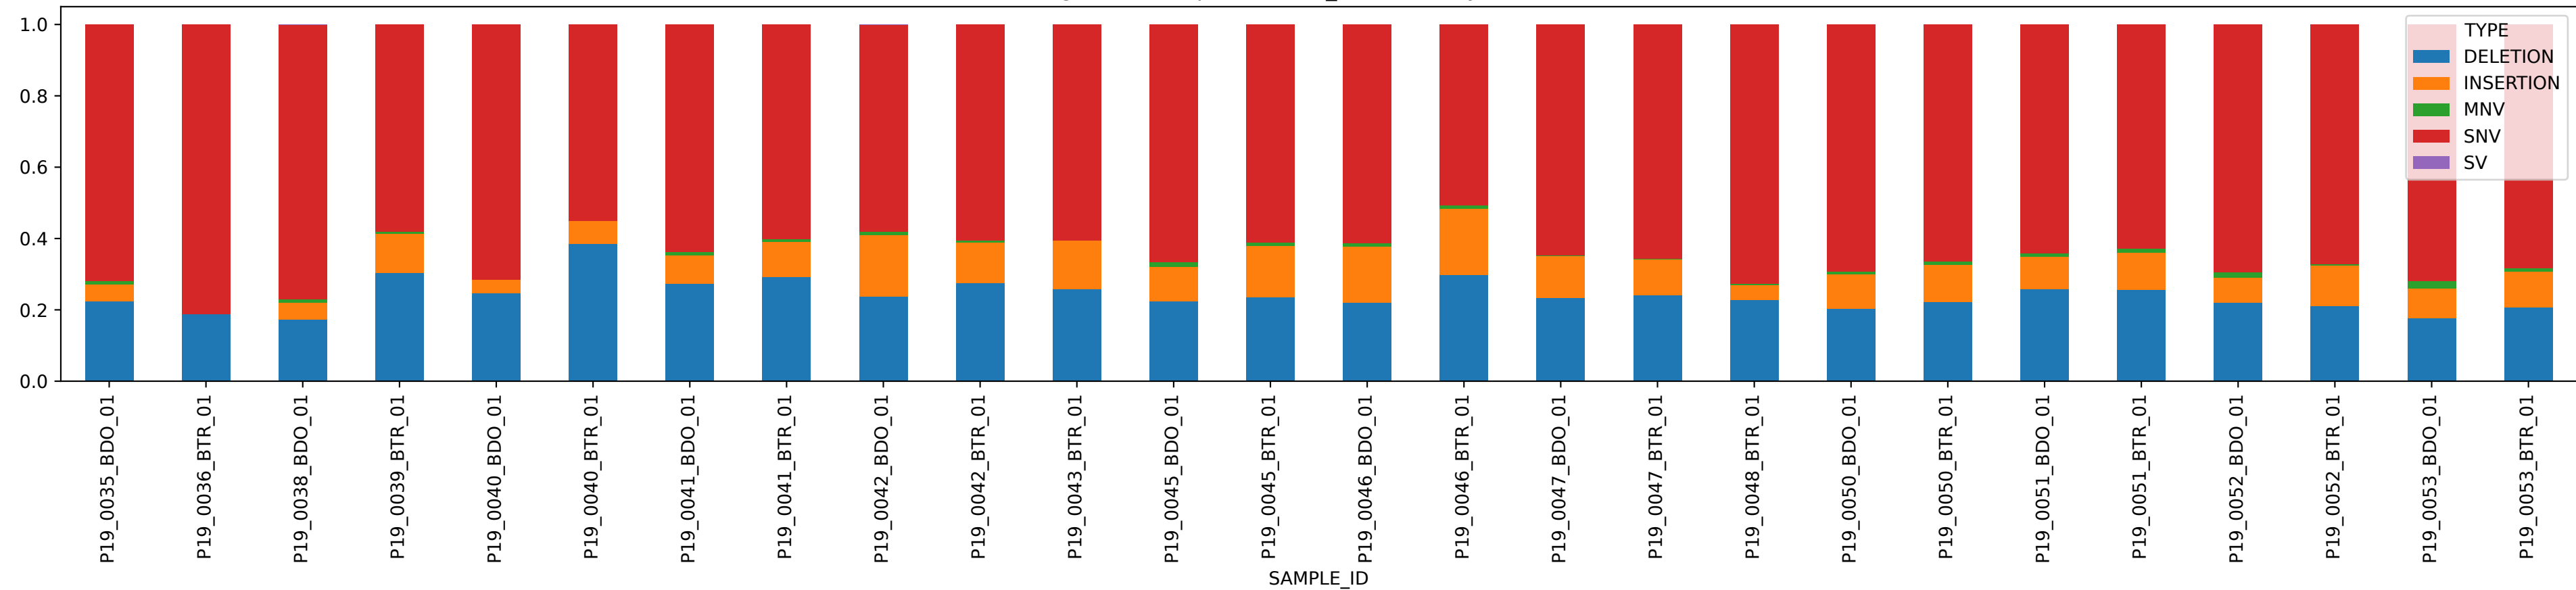

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 2/3)

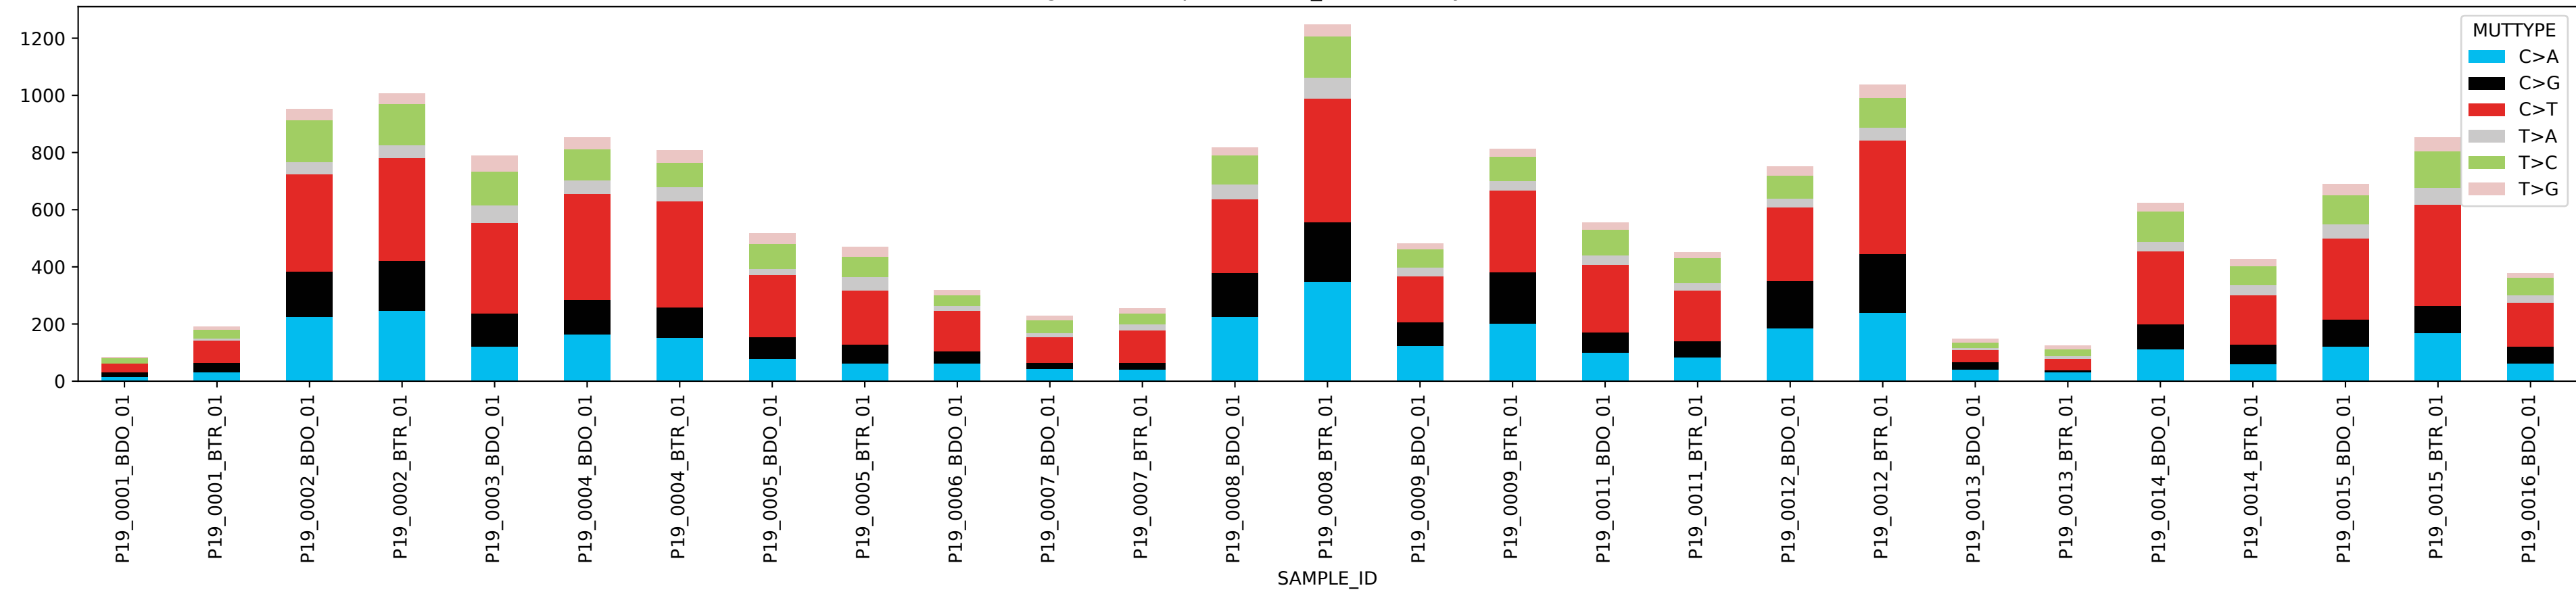

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 3/3)

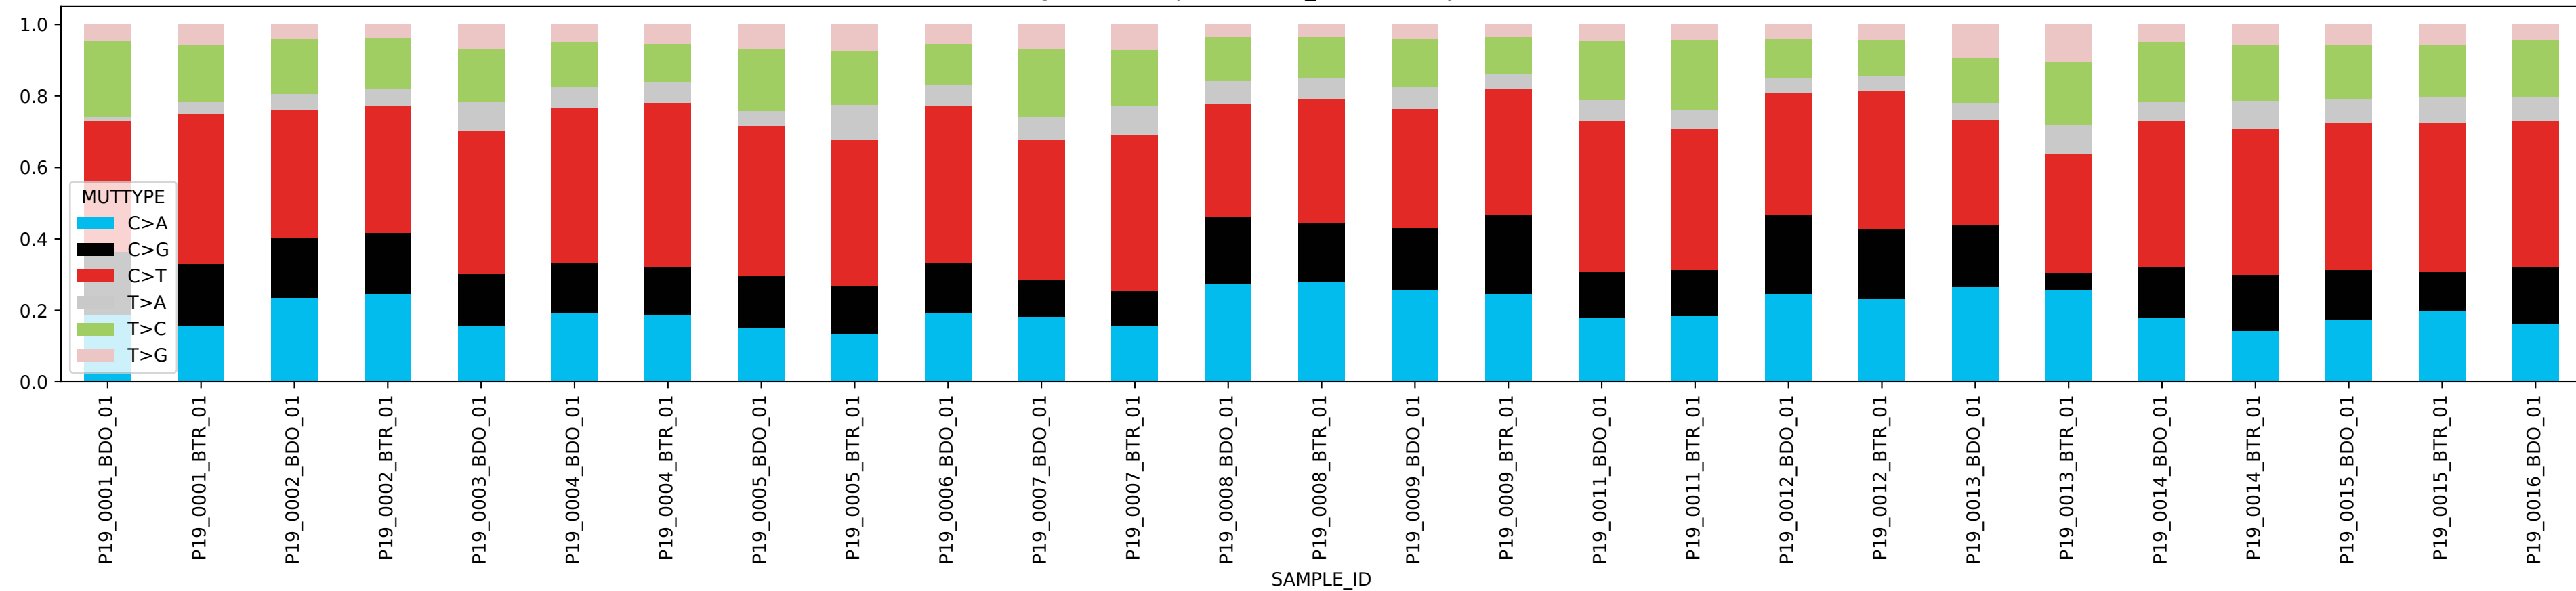

Plotting mutations per SAMPLE_ID colored by TYPE (Plot 3/3)

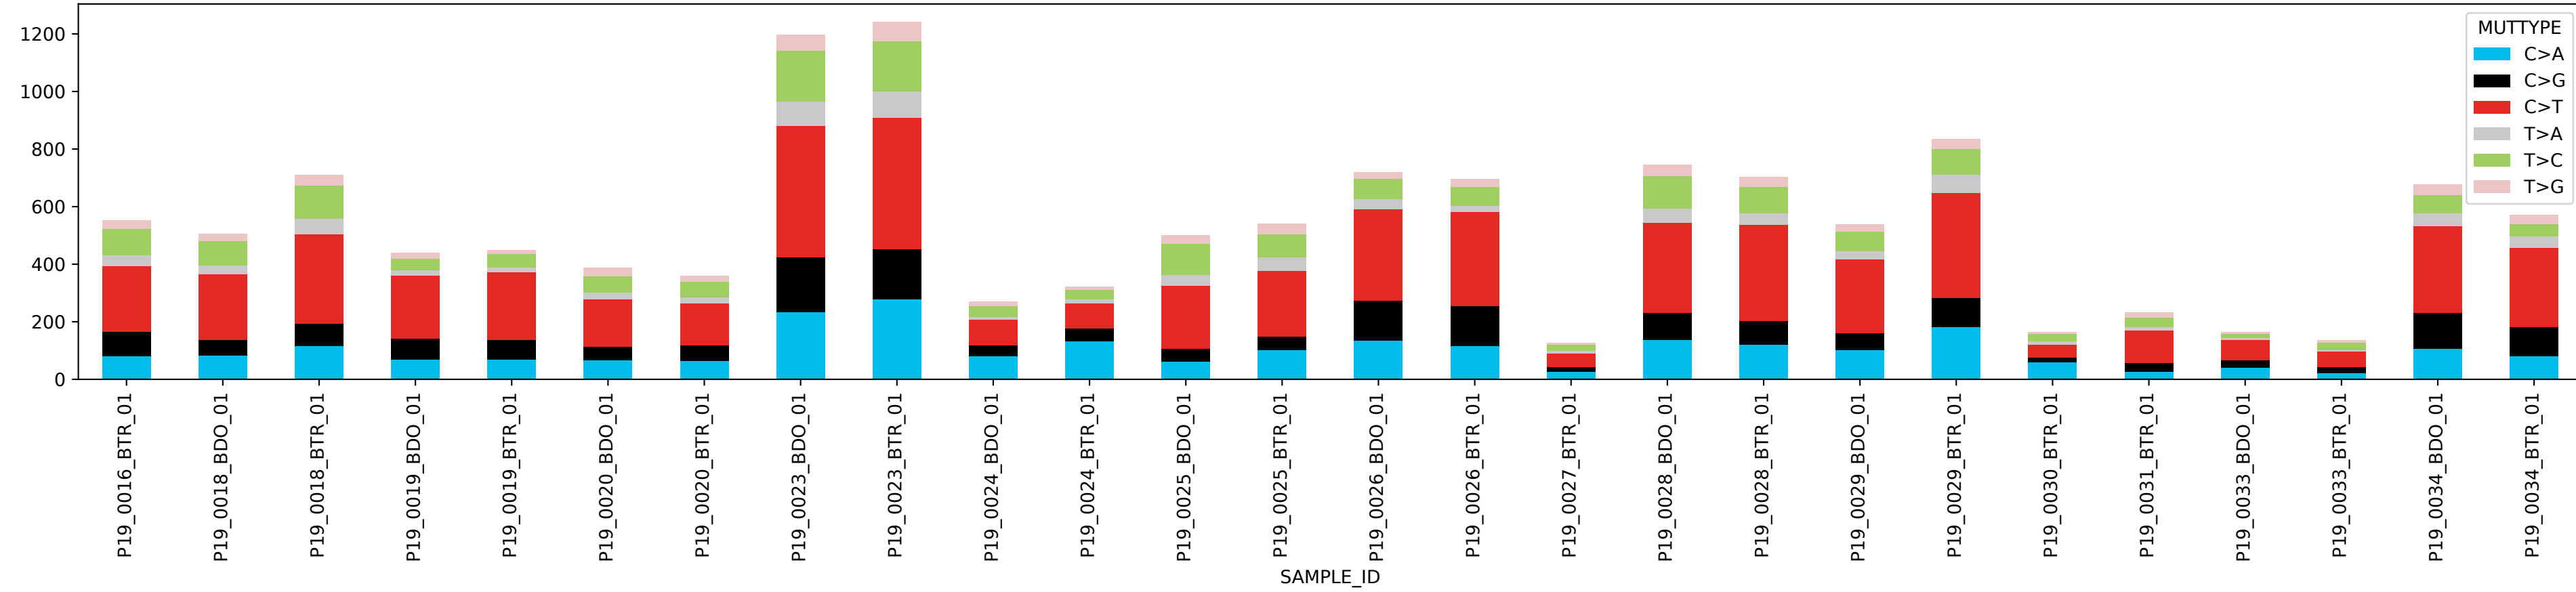

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 1/3)

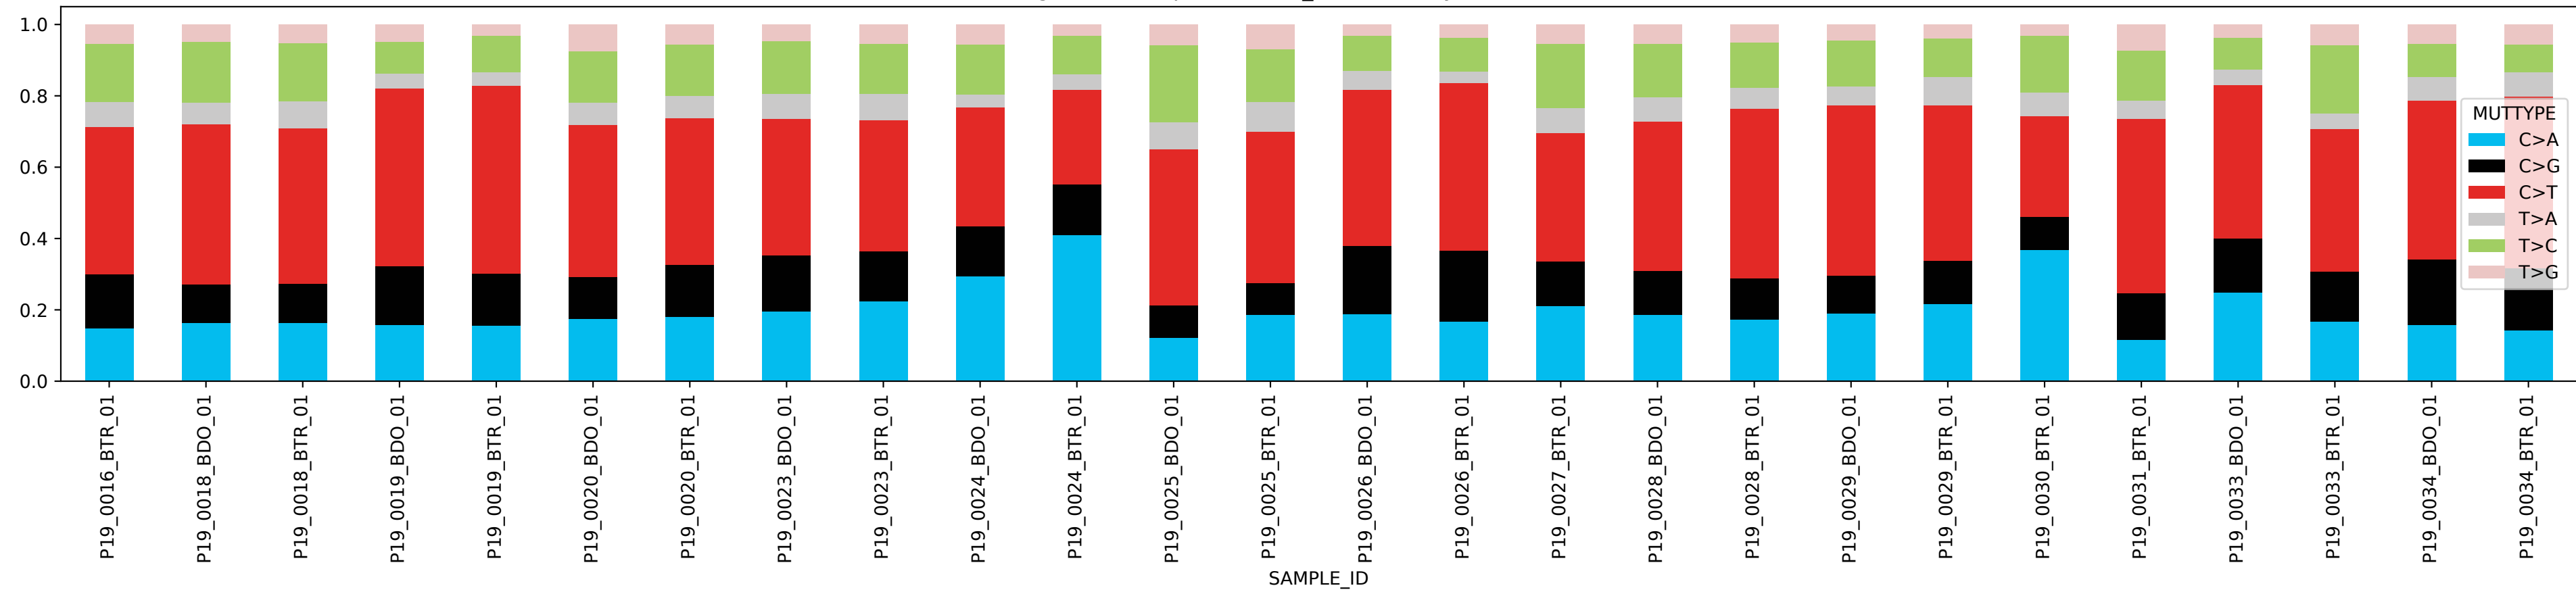

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 1/3)

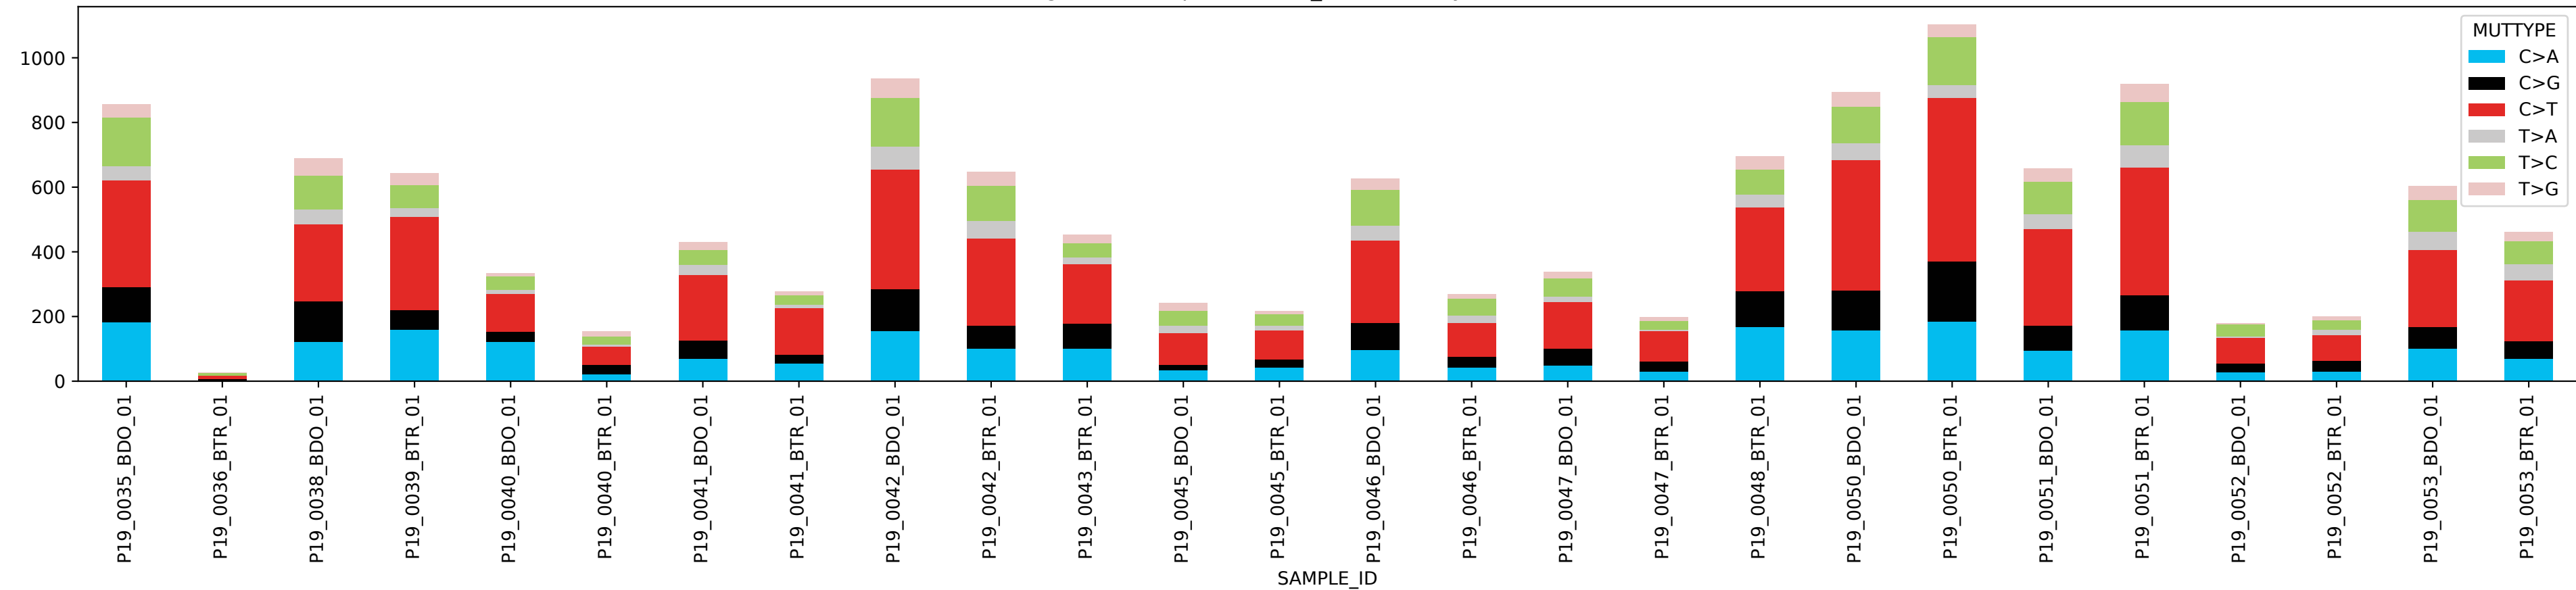

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 2/3)

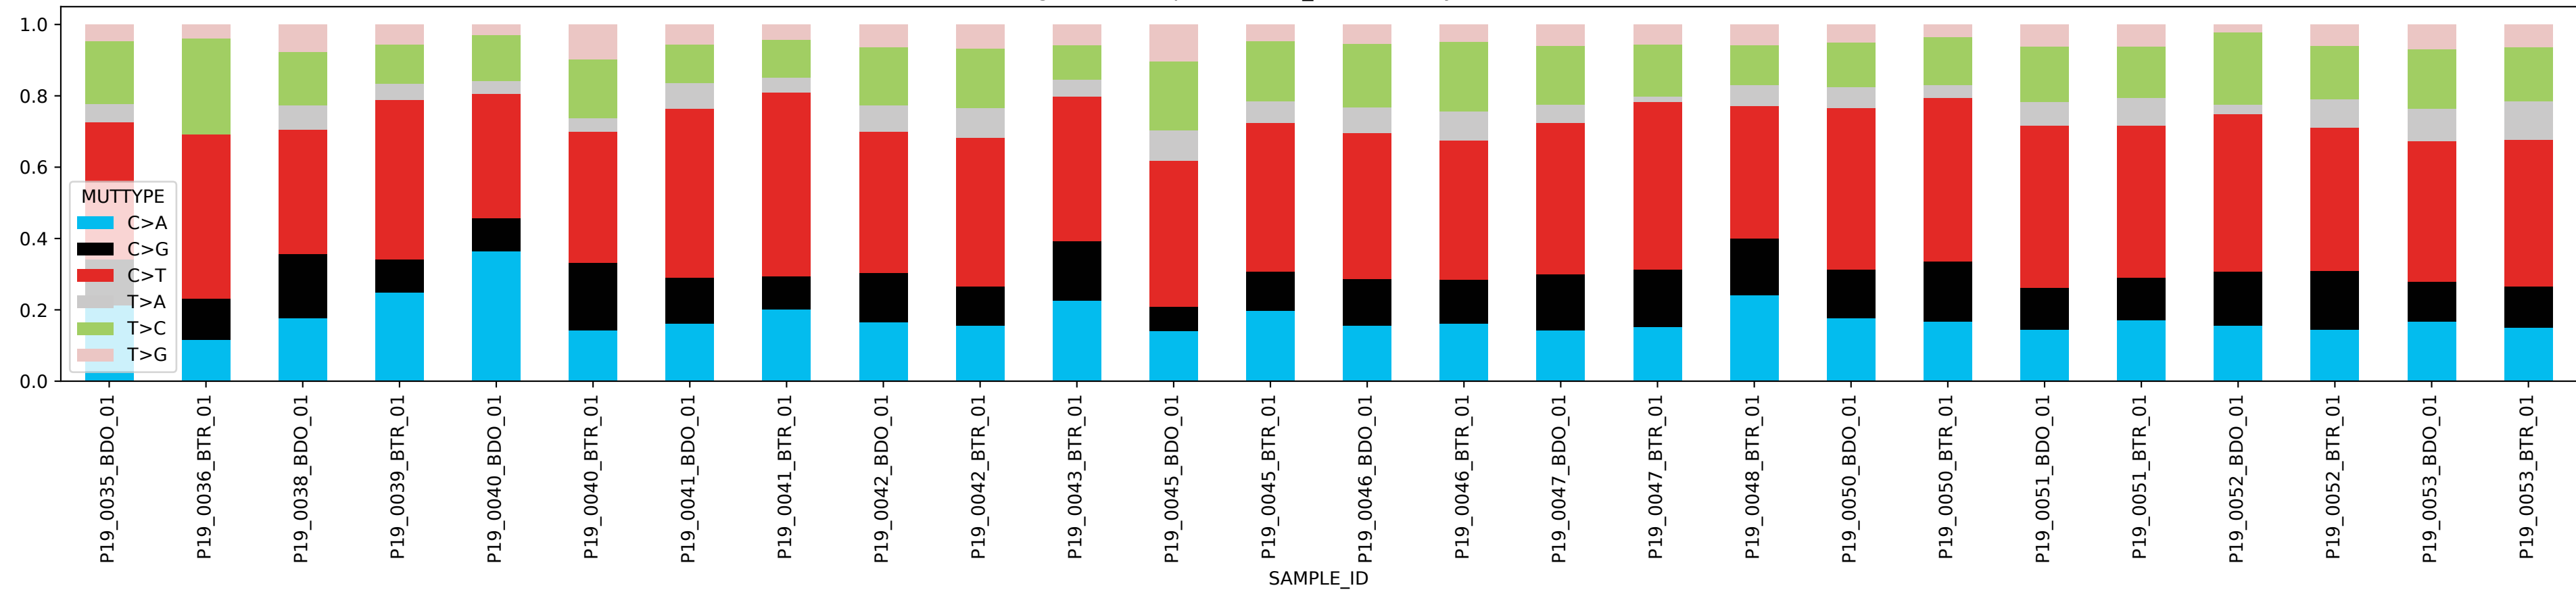

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 2/3)

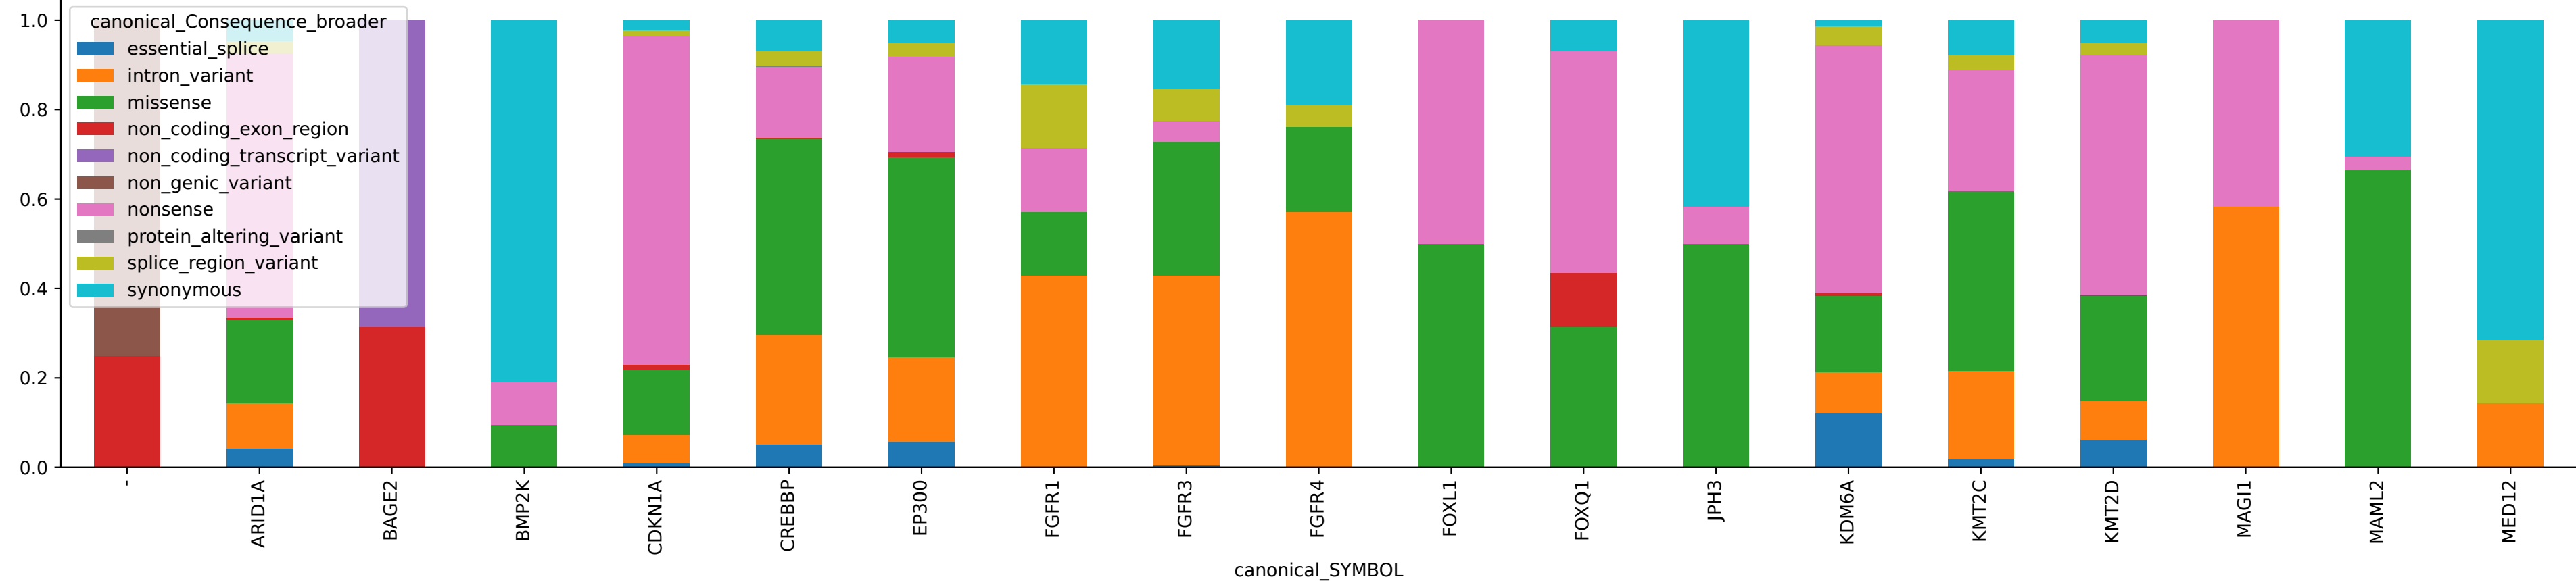

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 3/3)

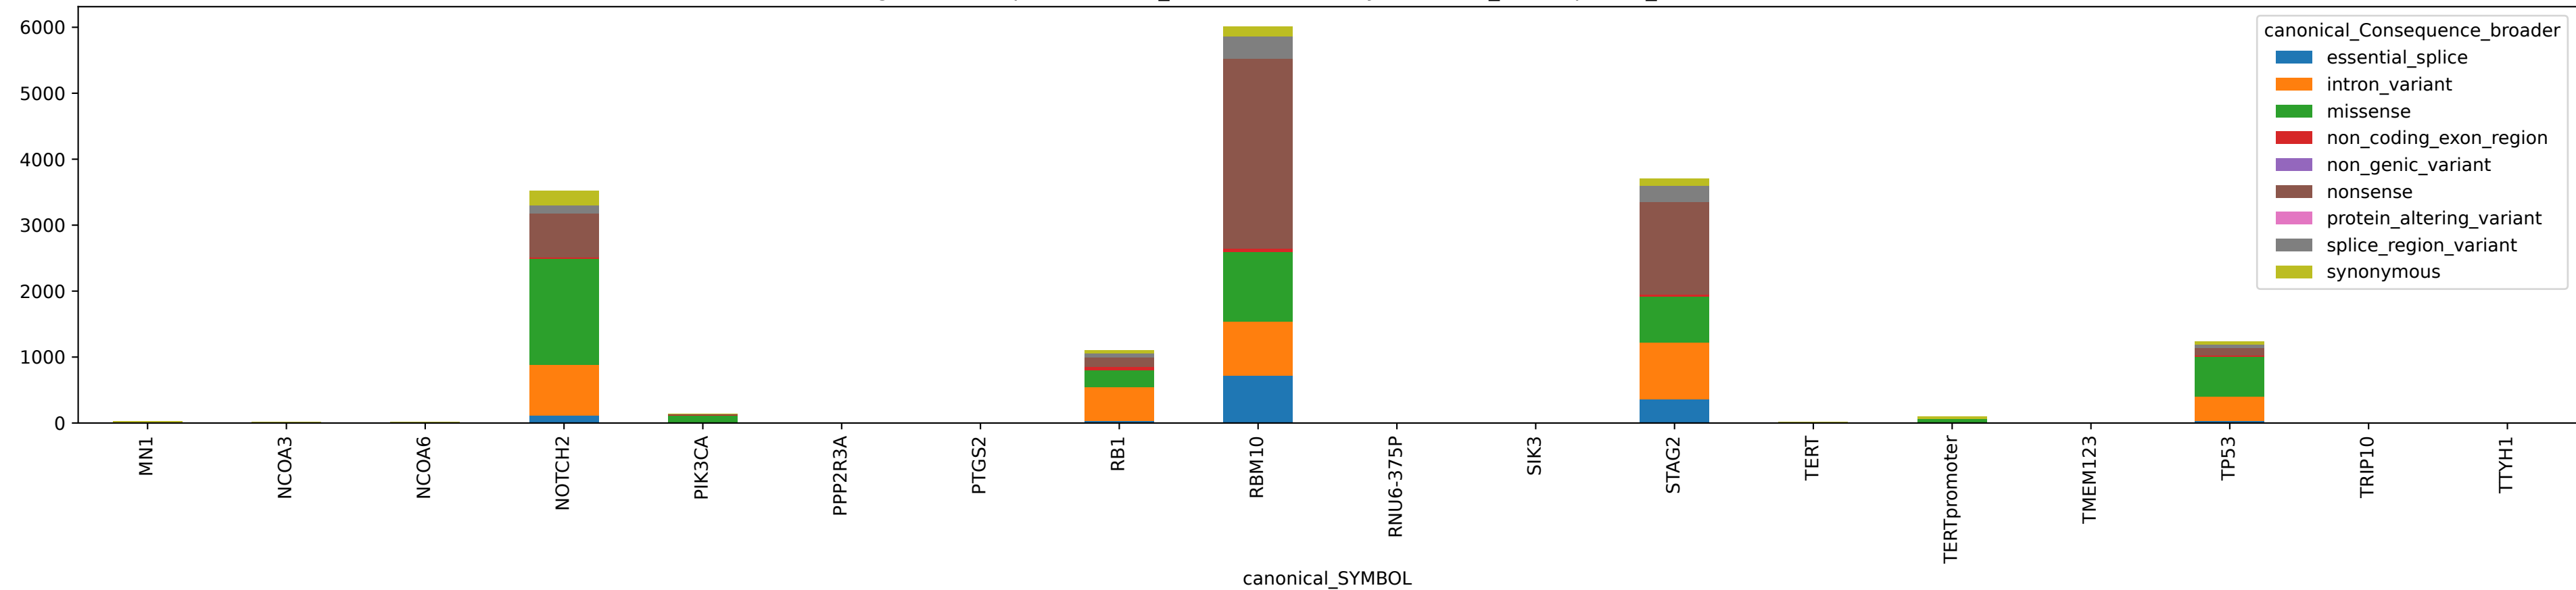

Plotting mutations per SAMPLE_ID colored by MUTTYPE (Plot 3/3)

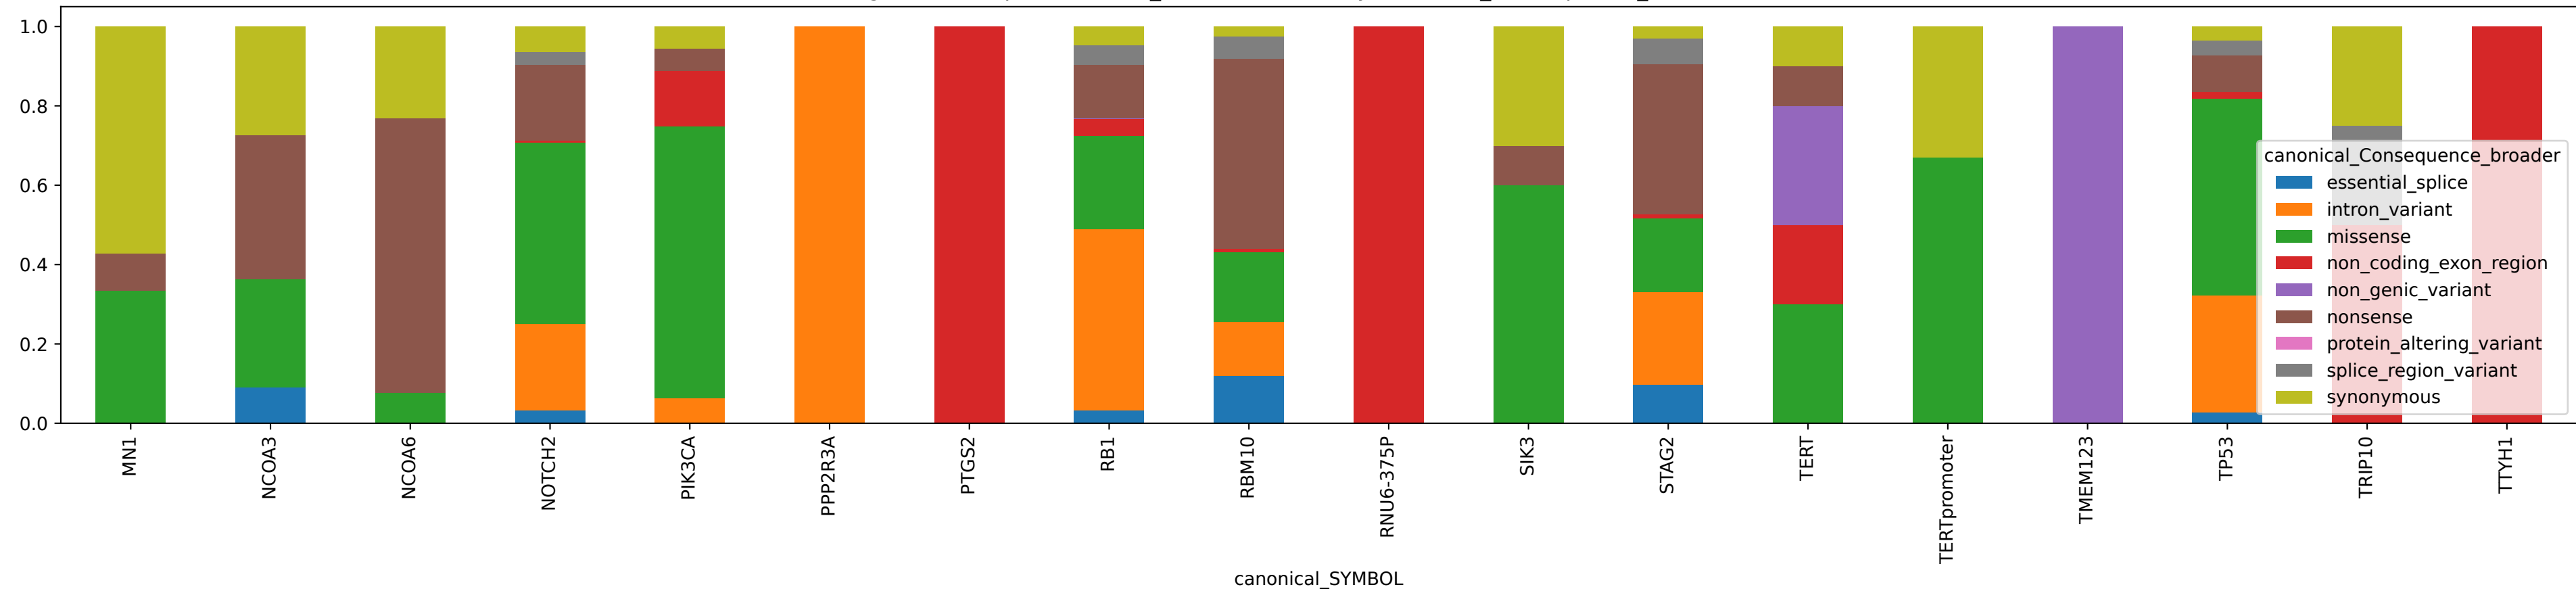

Plotting mutations per canonical_SYMBOL colored by canonical_Consequence_broader (Plot 1/2)

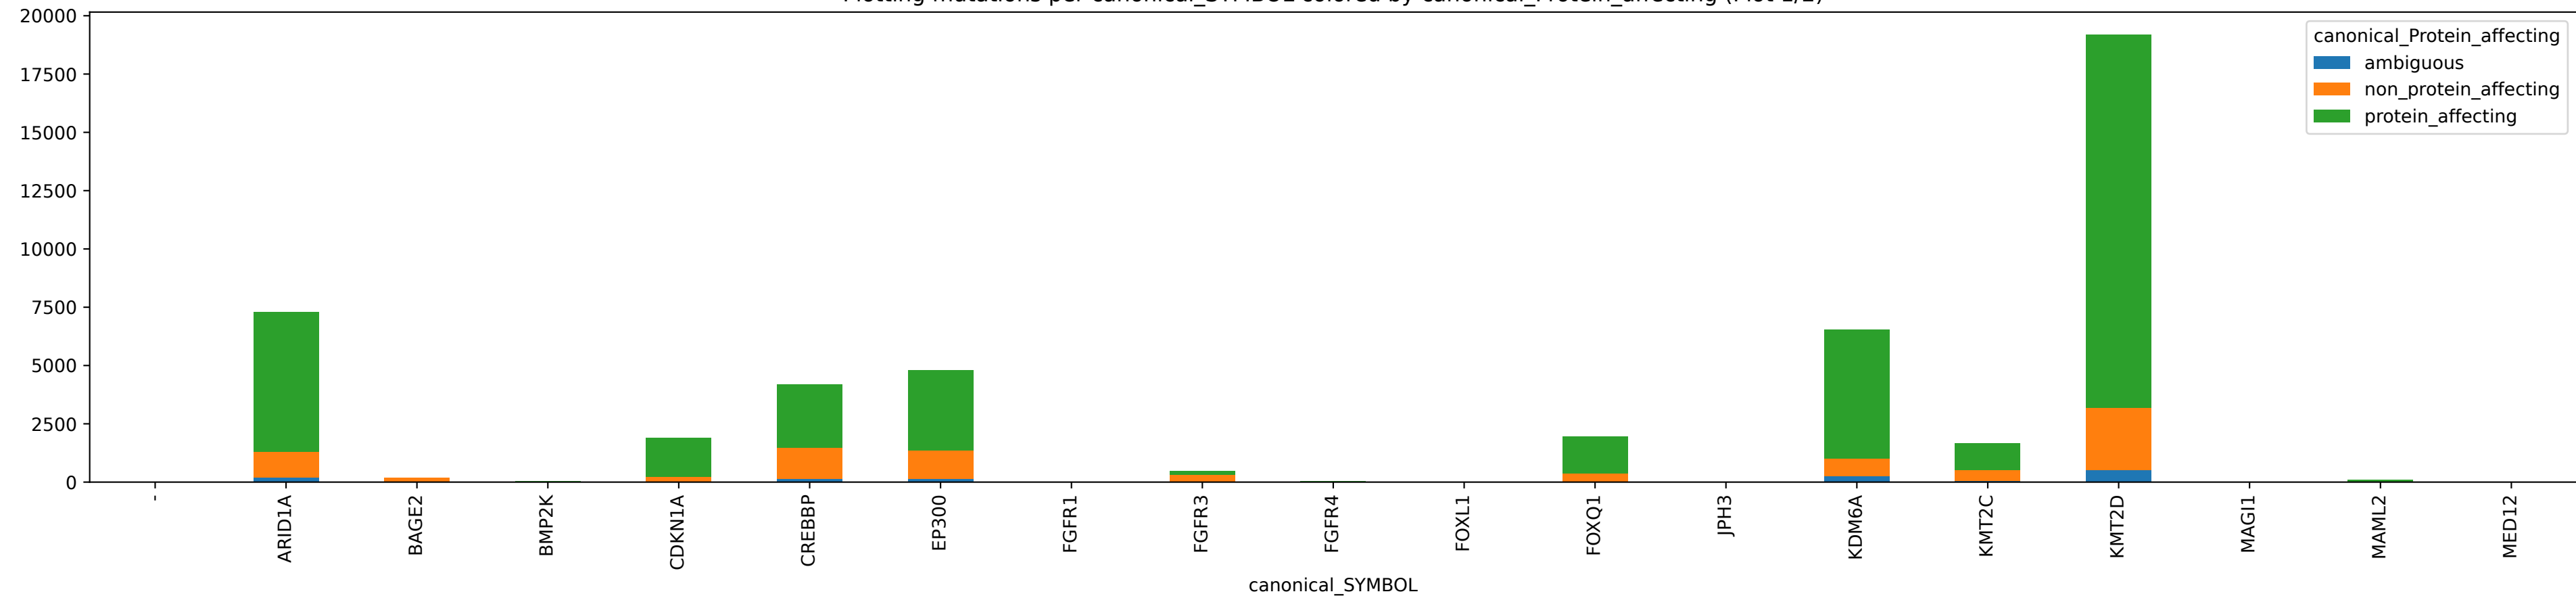

Plotting mutations per canonical_SYMBOL colored by canonical_Consequence_broader (Plot 2/2)

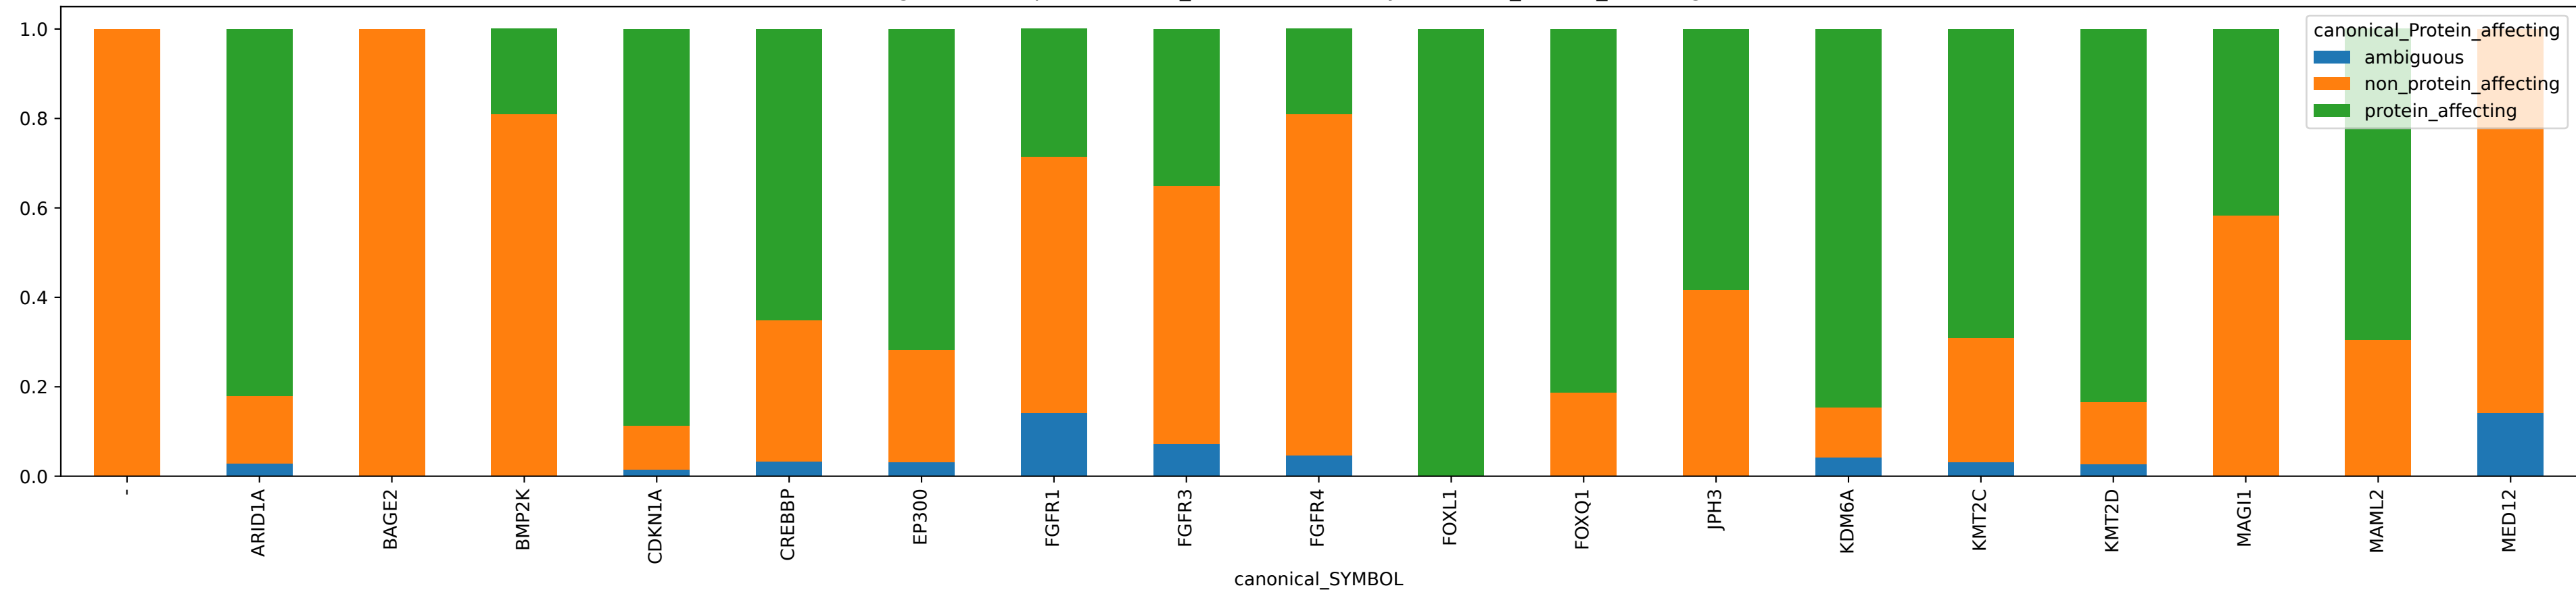

Plotting mutations per canonical_SYMBOL colored by canonical_Consequence_broader (Plot 2/2)

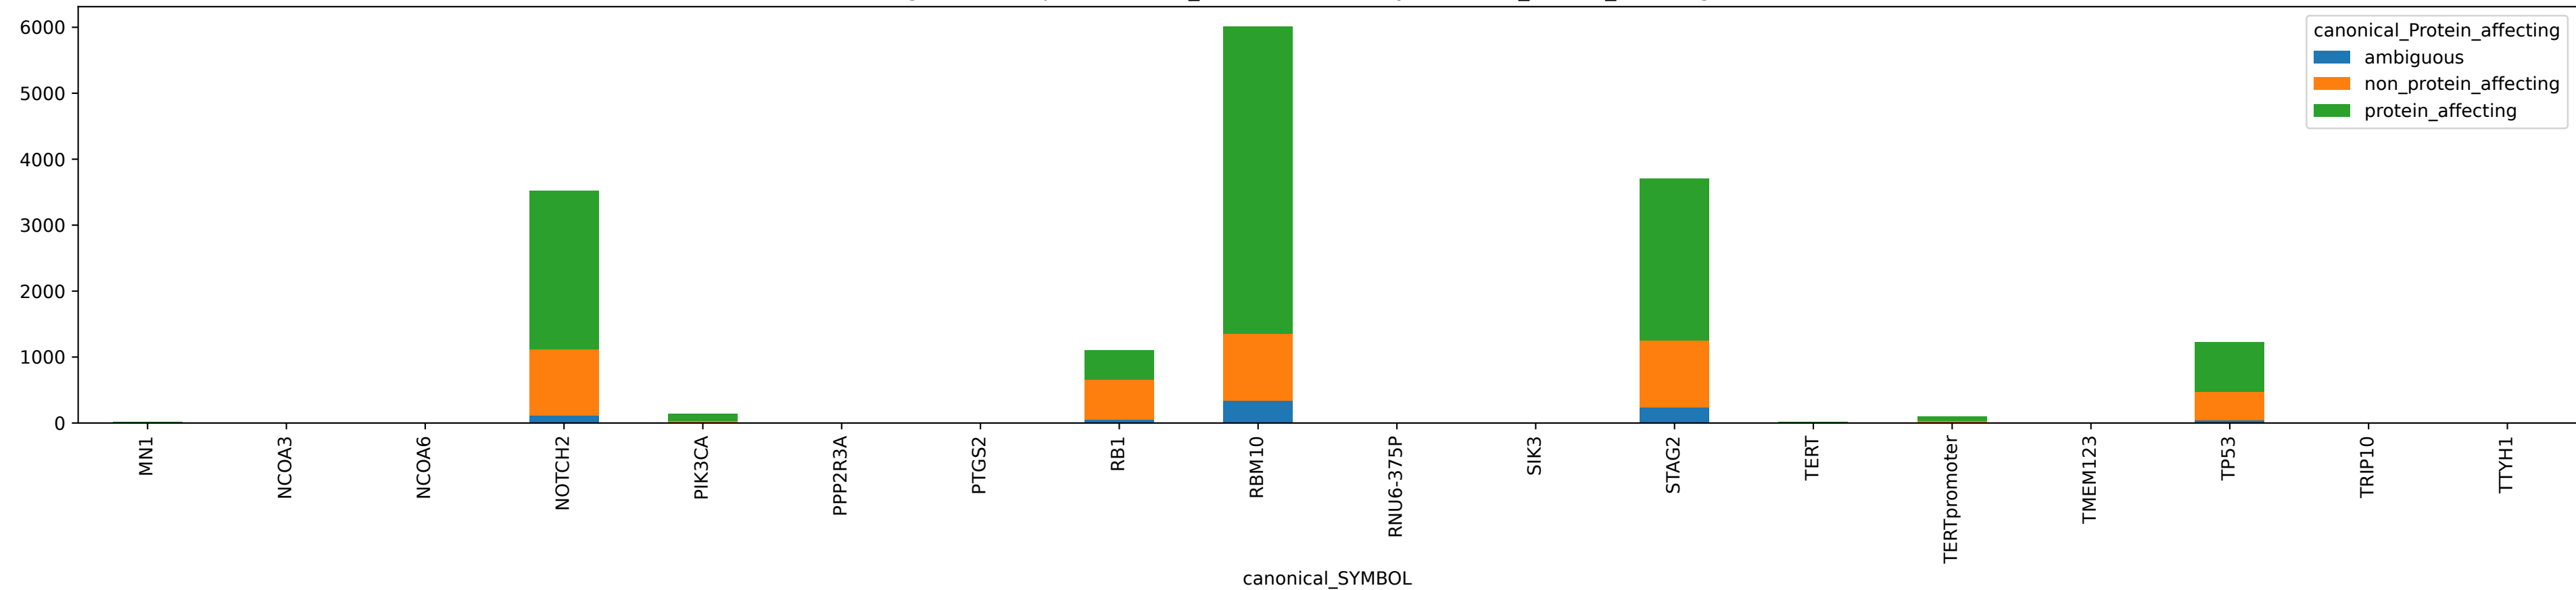

Plotting mutations per canonical_SYMBOL colored by canonical_Protein_affecting (Plot 1/2)

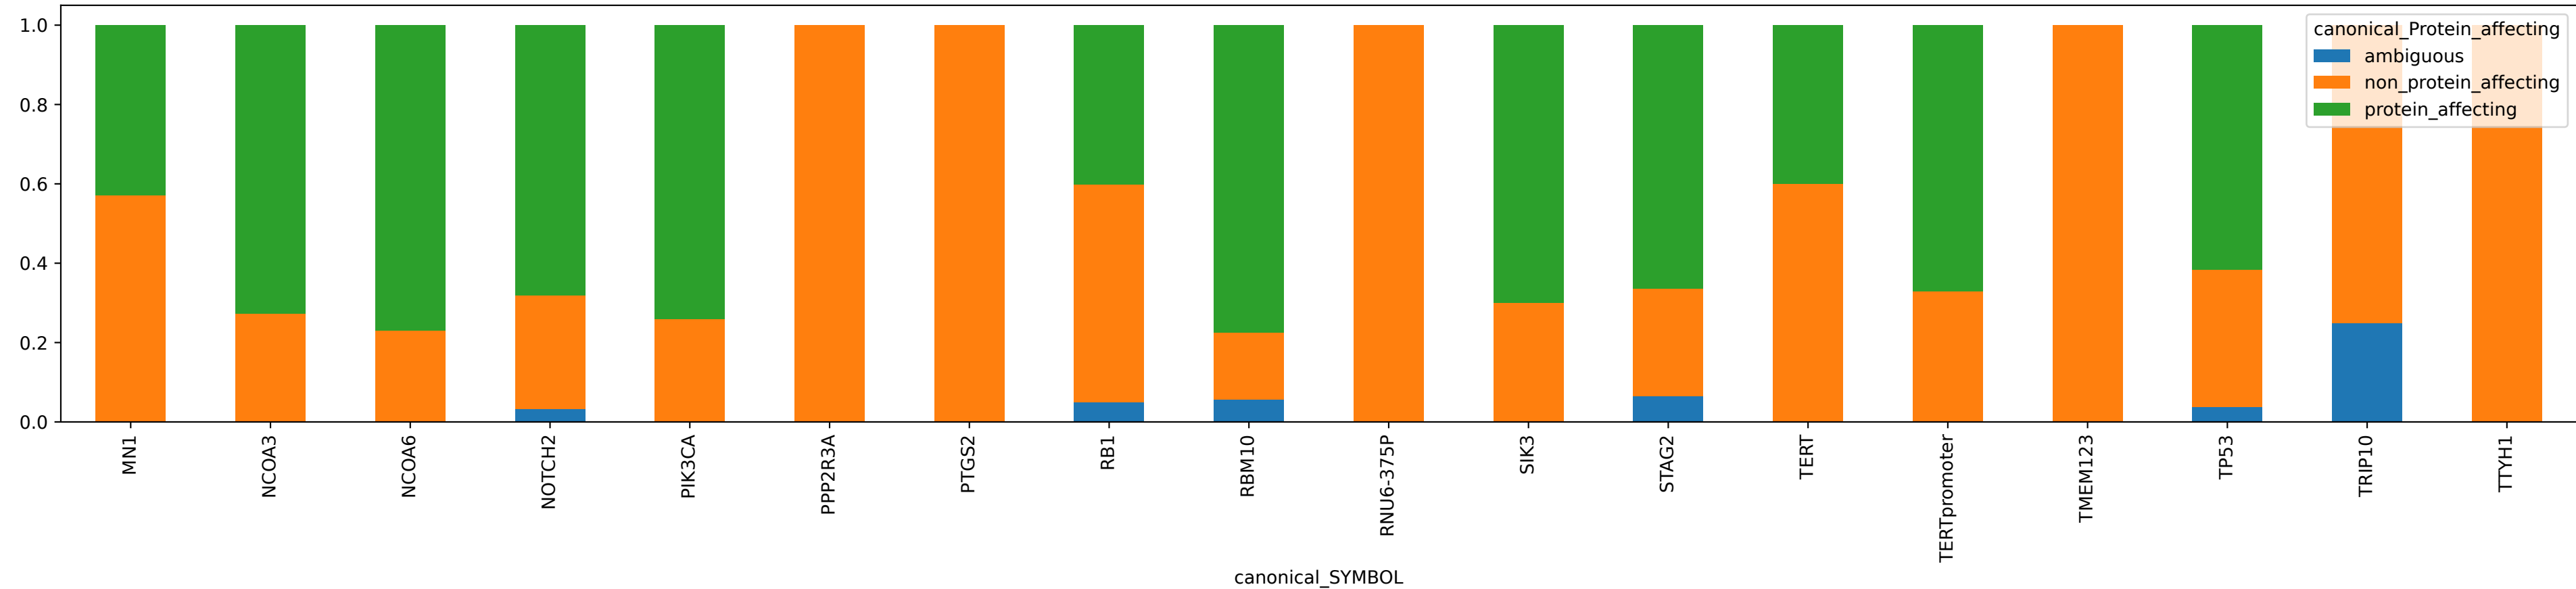

Plotting mutations per canonical_SYMBOL colored by canonical_Protein_affecting (Plot 1/2)

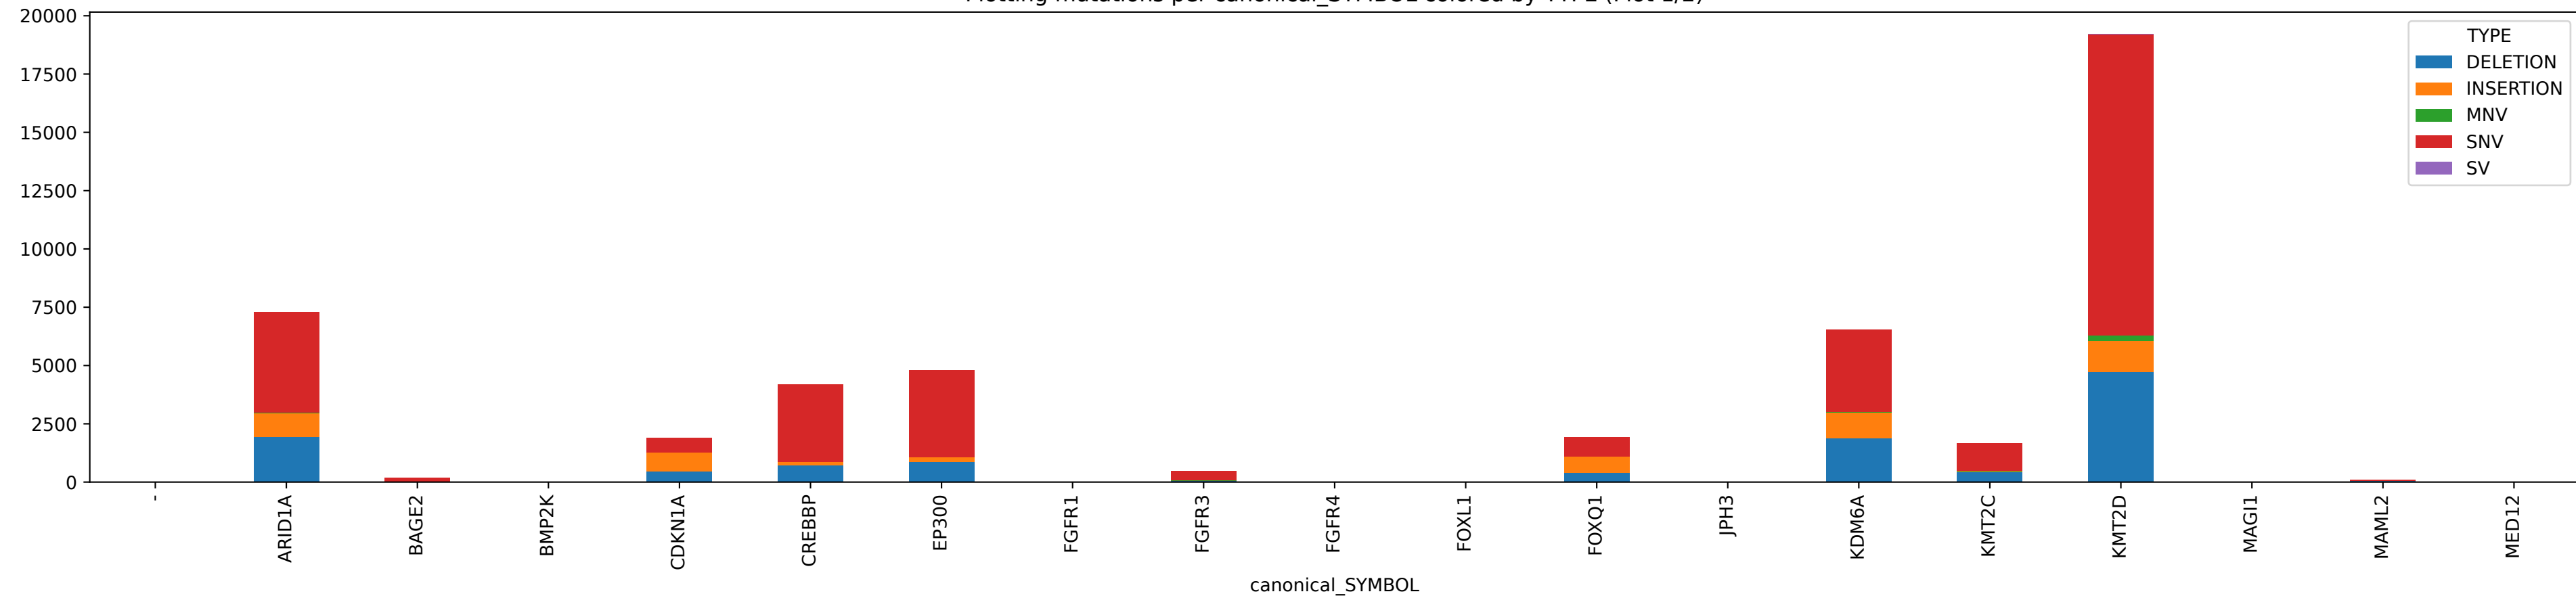

Plotting mutations per canonical_SYMBOL colored by canonical_Protein_affecting (Plot 2/2)

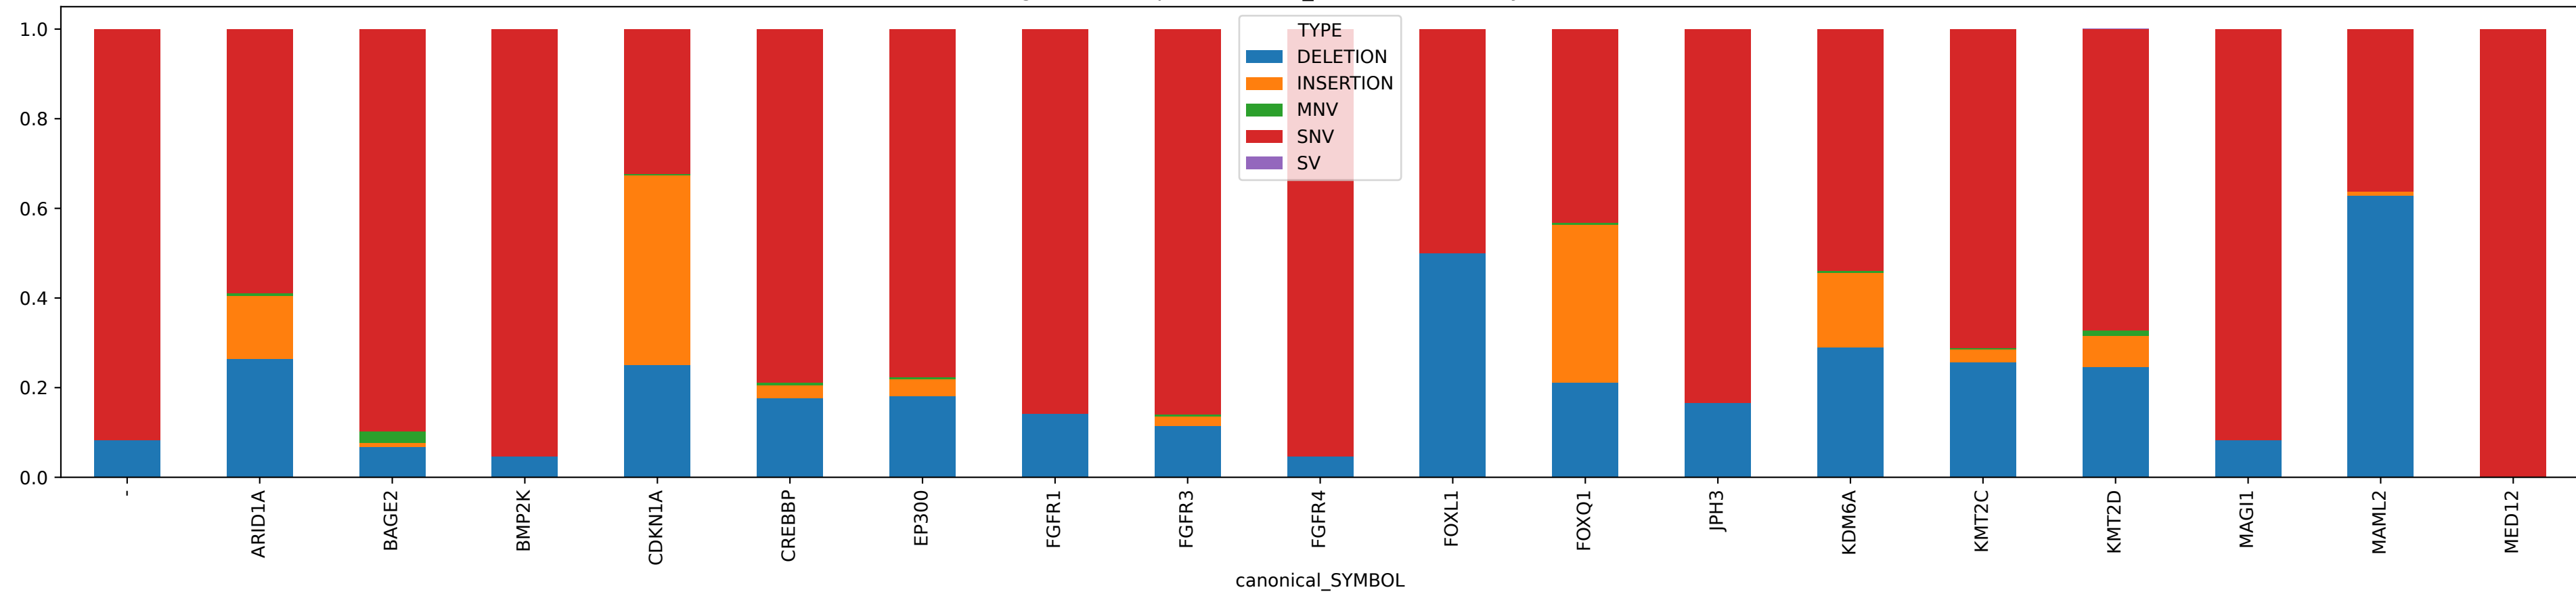

Plotting mutations per canonical_SYMBOL colored by canonical_Protein_affecting (Plot 2/2)

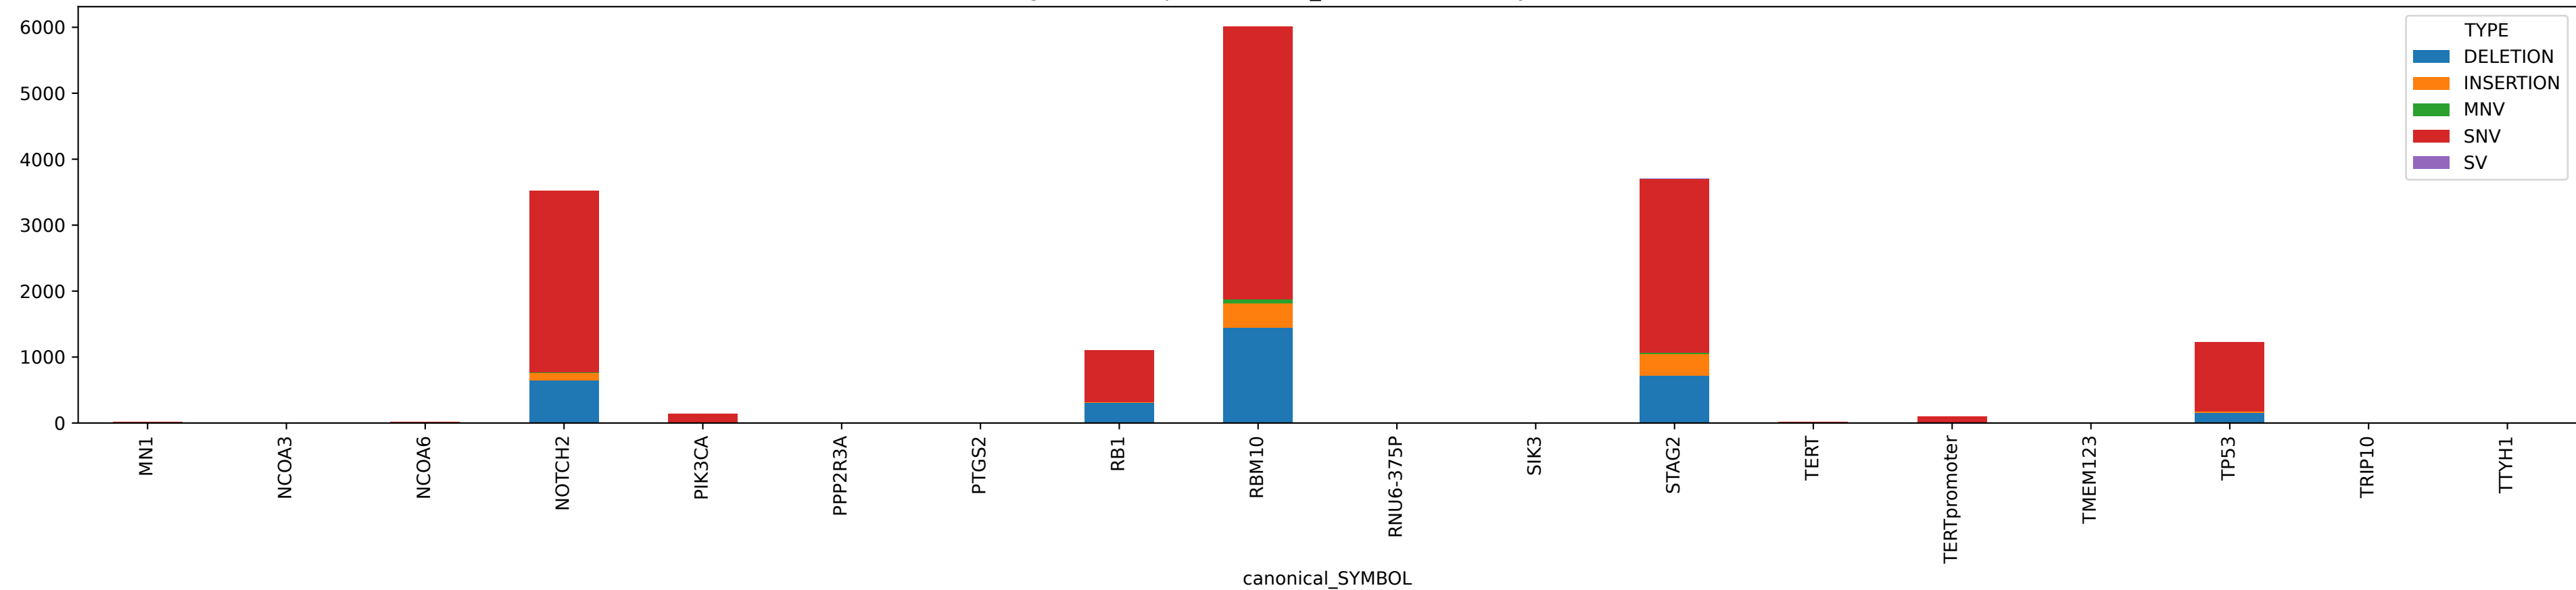

Plotting mutations per canonical_SYMBOL colored by TYPE (Plot 1/2)

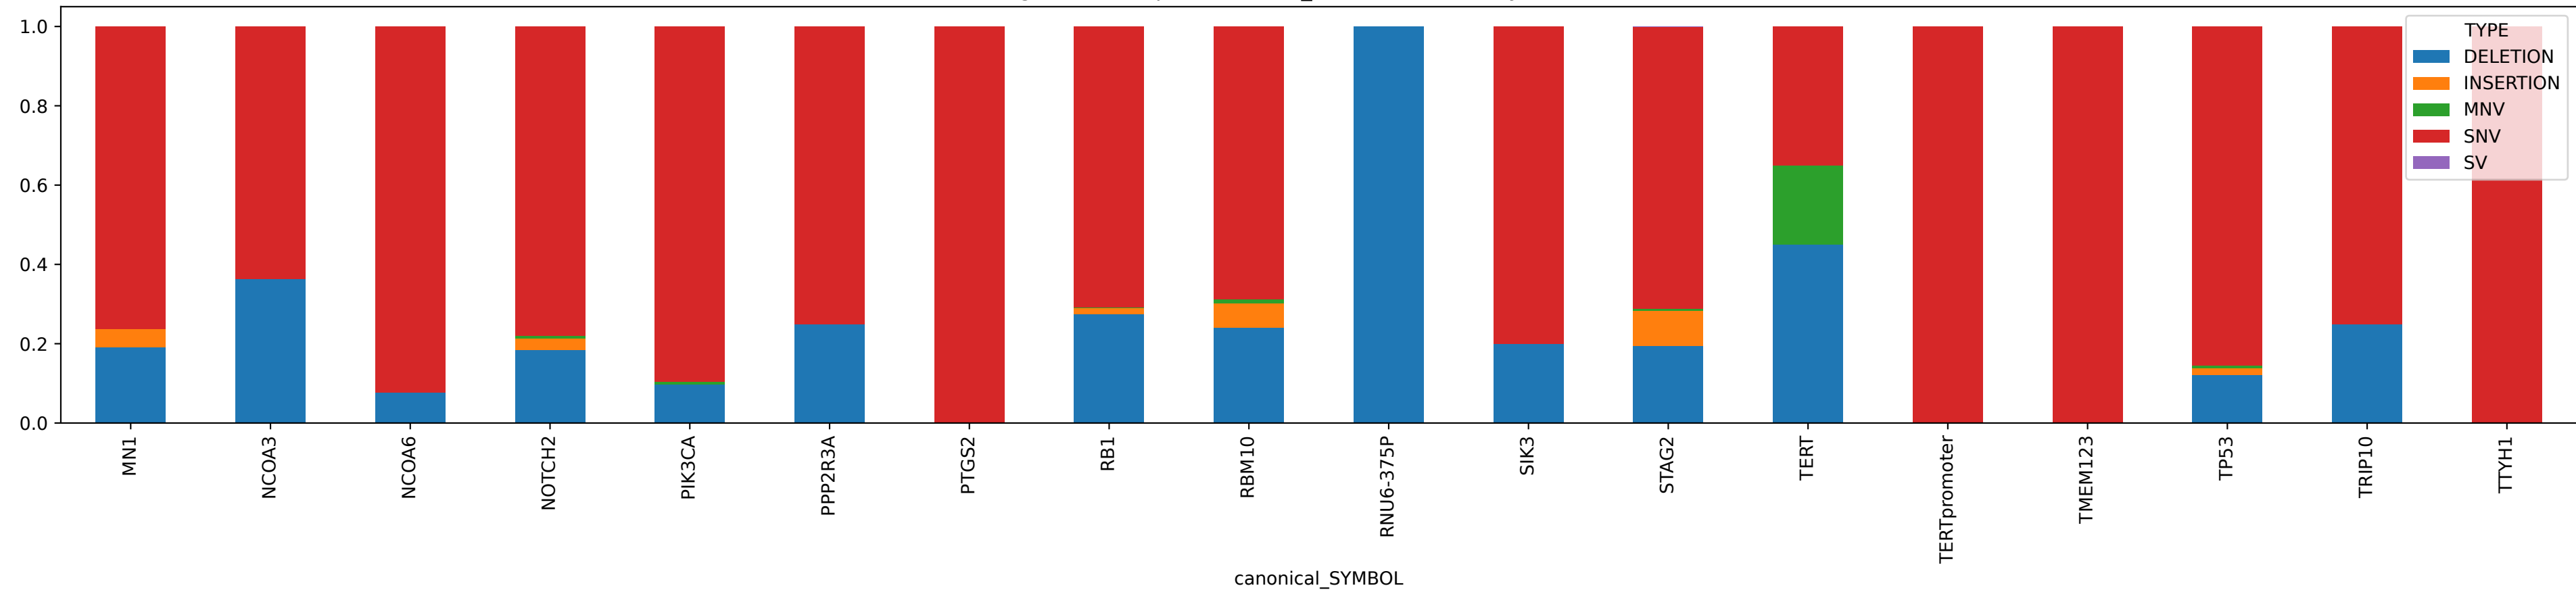

Plotting mutations per canonical_SYMBOL colored by TYPE (Plot 1/2)

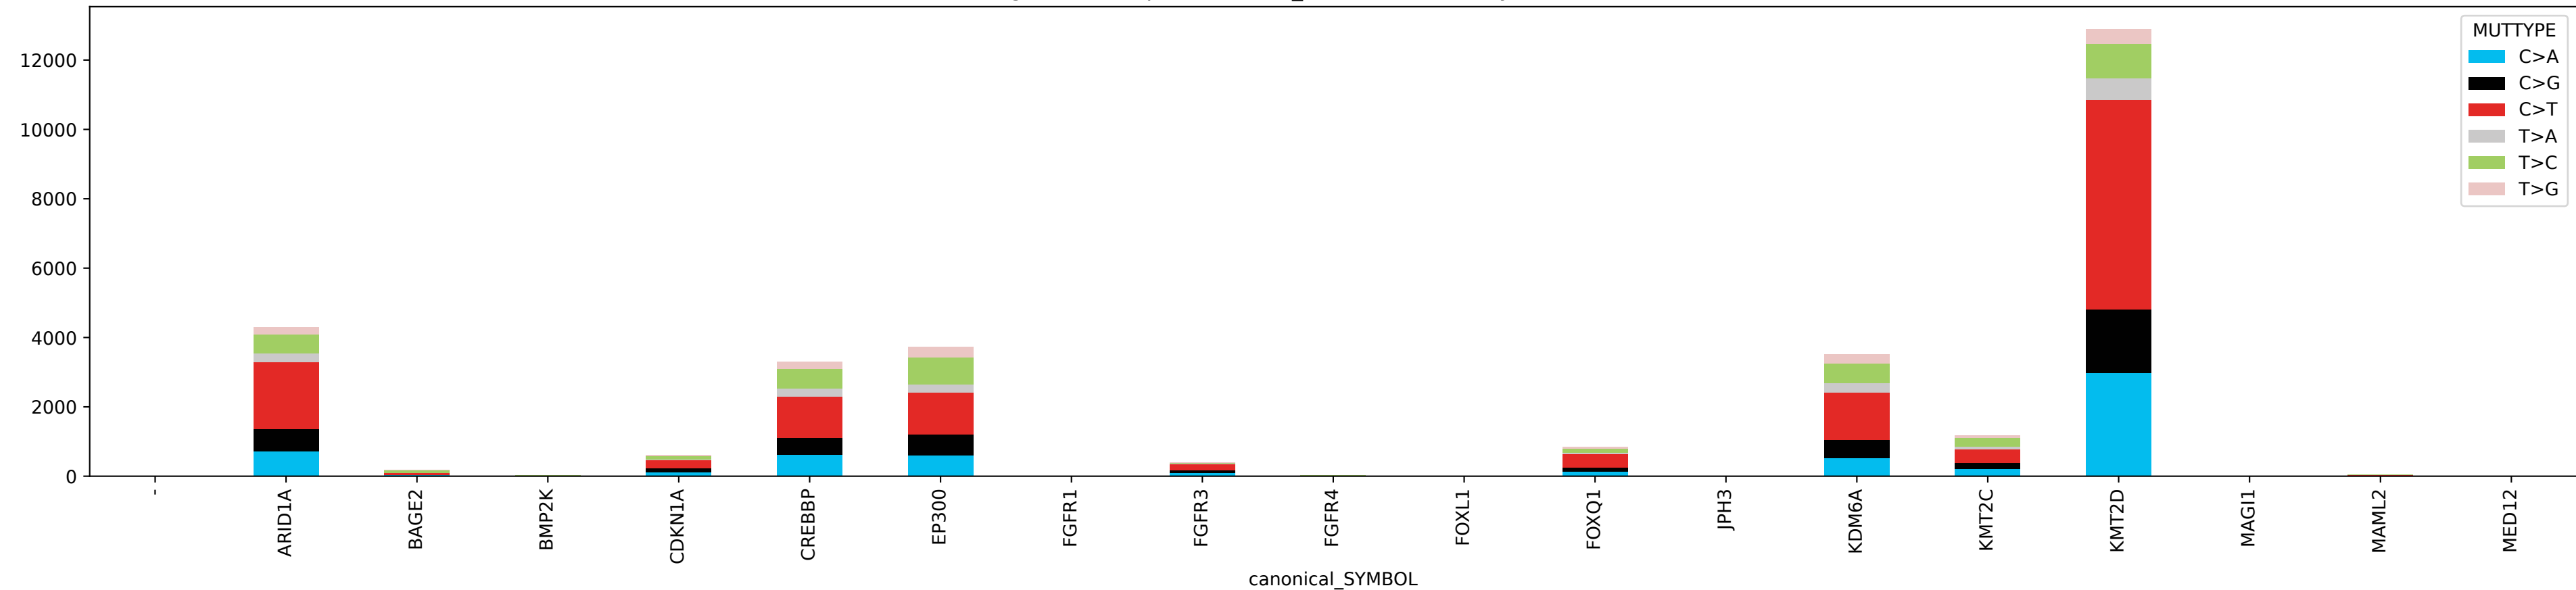

Plotting mutations per canonical_SYMBOL colored by TYPE (Plot 2/2)

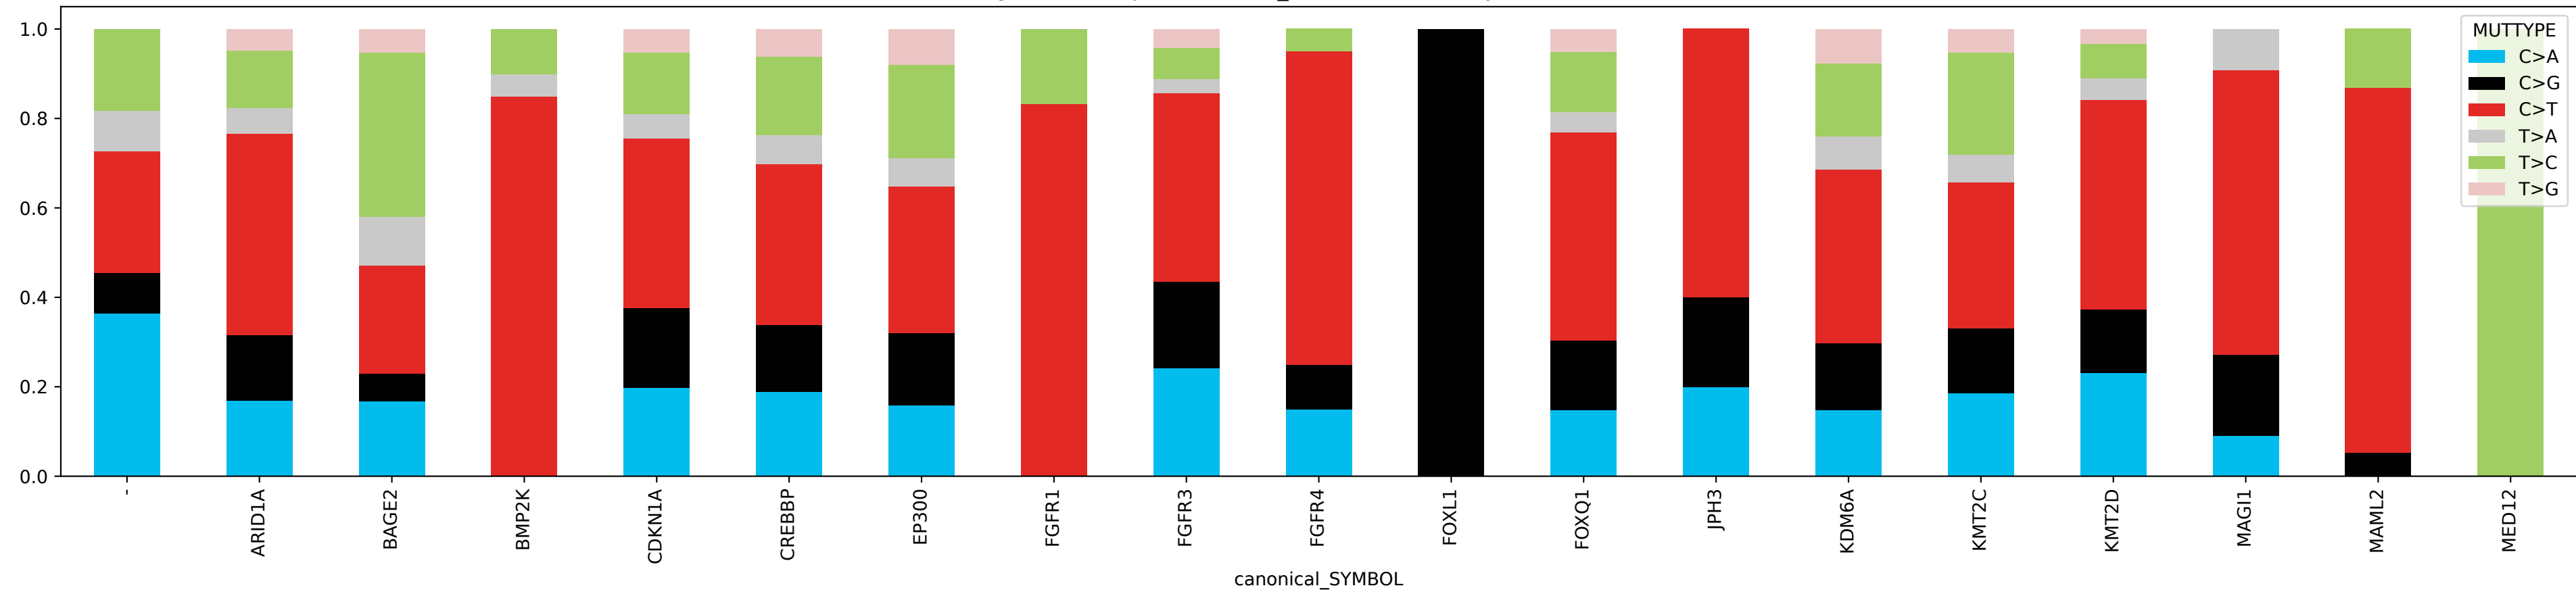

Plotting mutations per canonical_SYMBOL colored by TYPE (Plot 2/2)

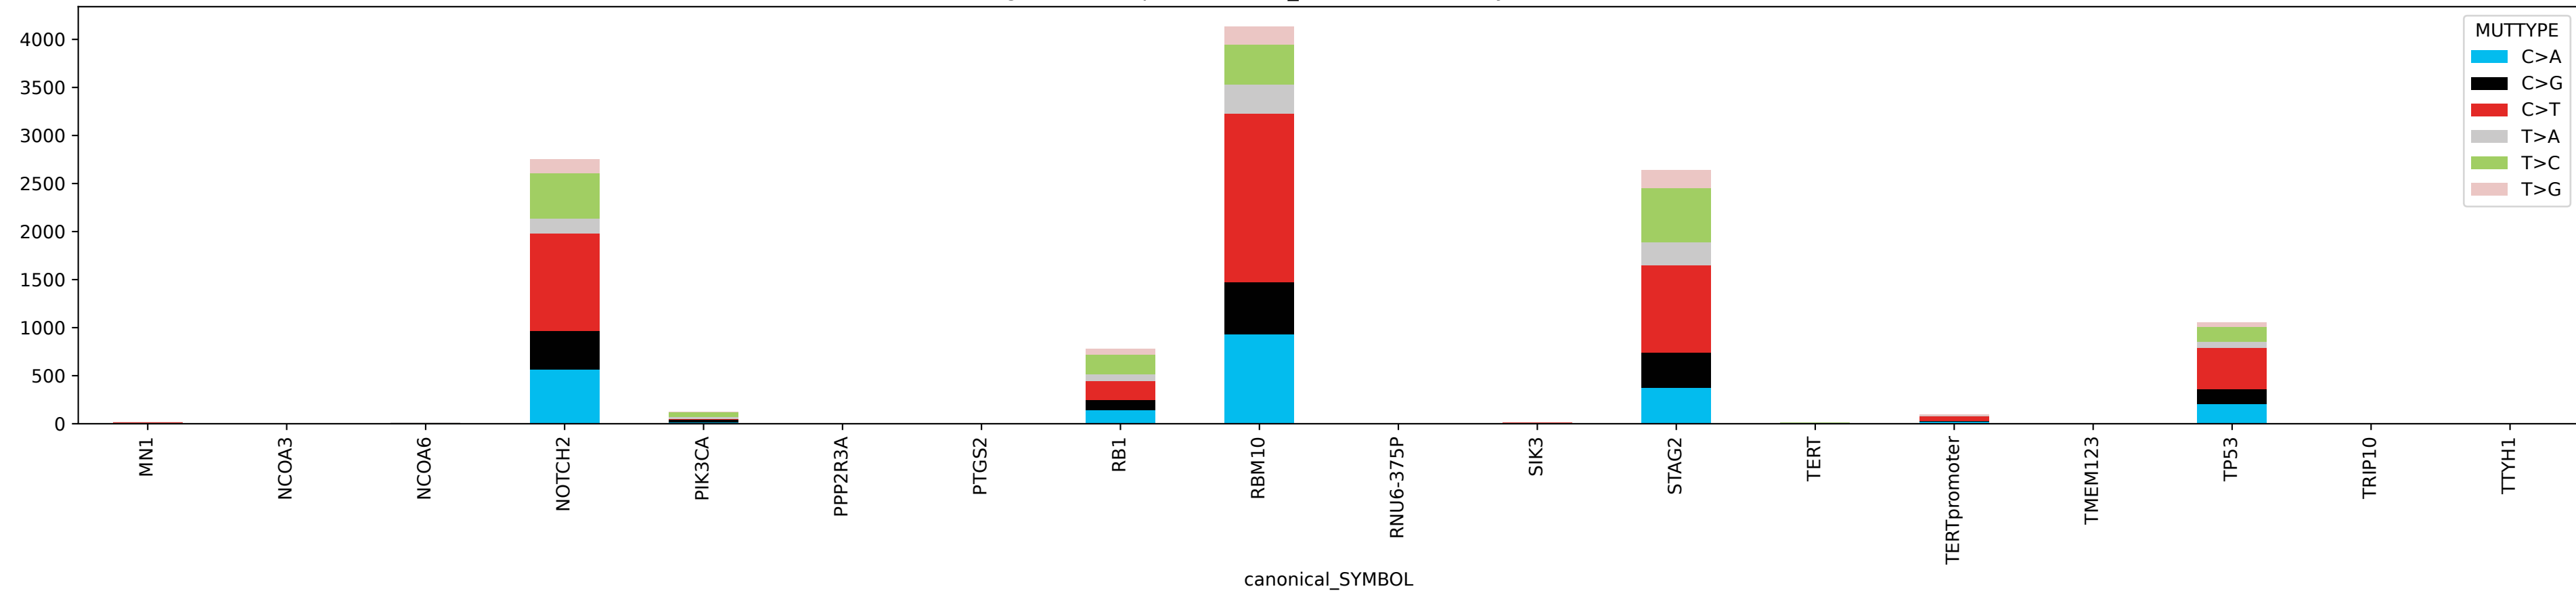

Plotting mutations per canonical_SYMBOL colored by MUTTYPE (Plot 1/2)

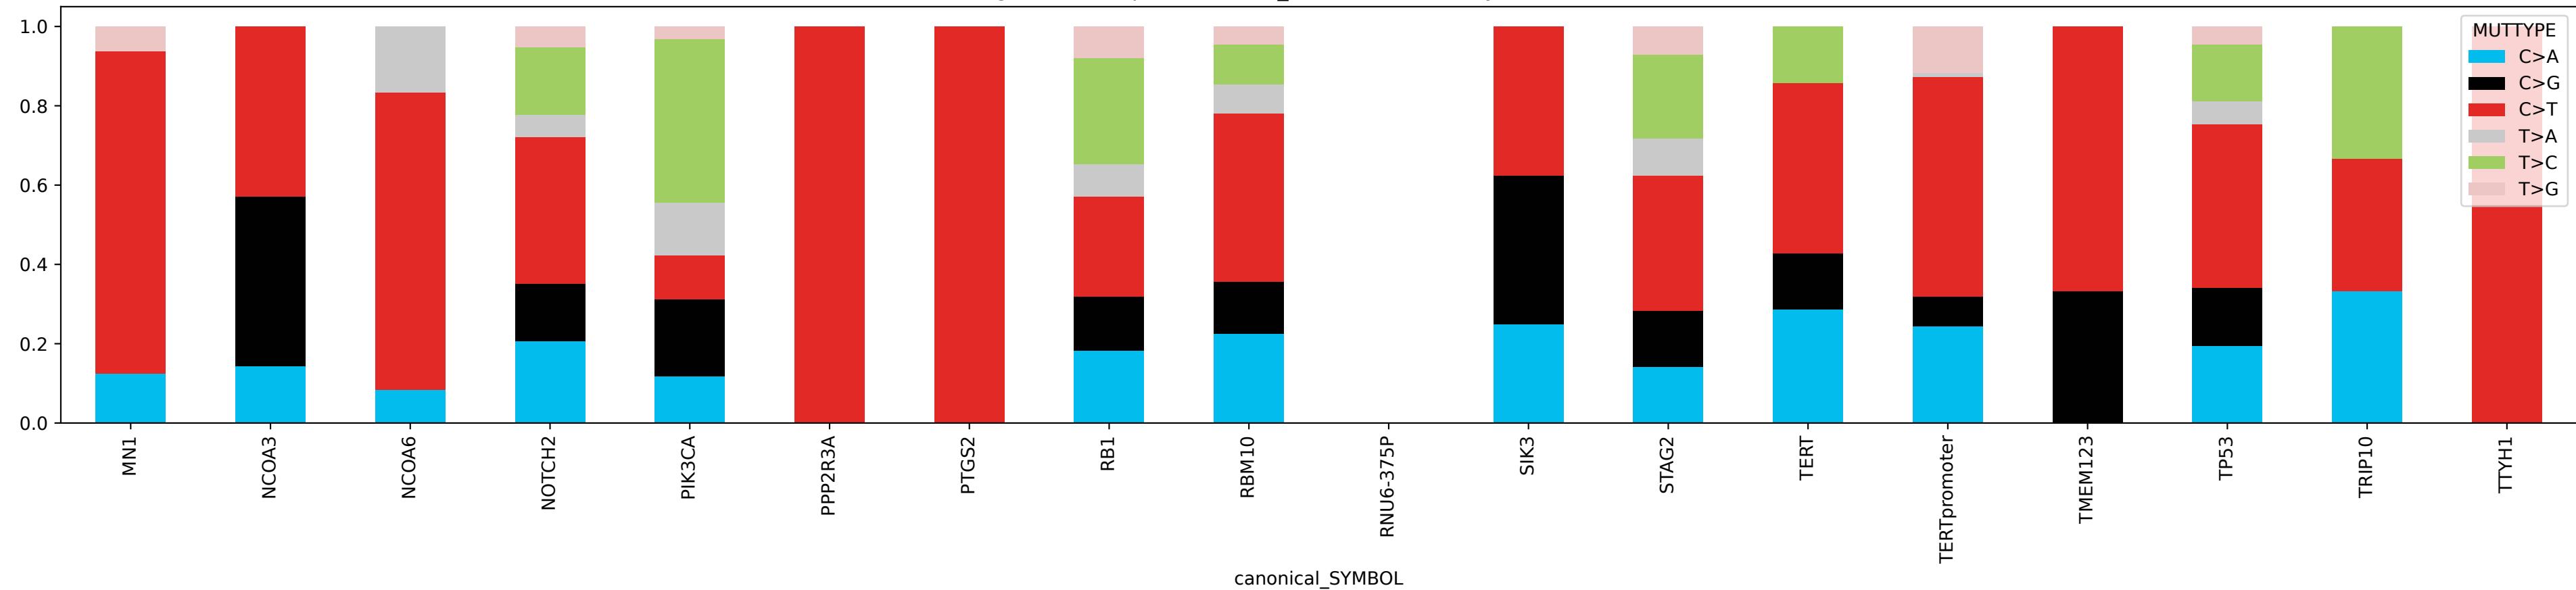

Plotting mutations per canonical_SYMBOL colored by MUTTYPE (Plot 1/2)

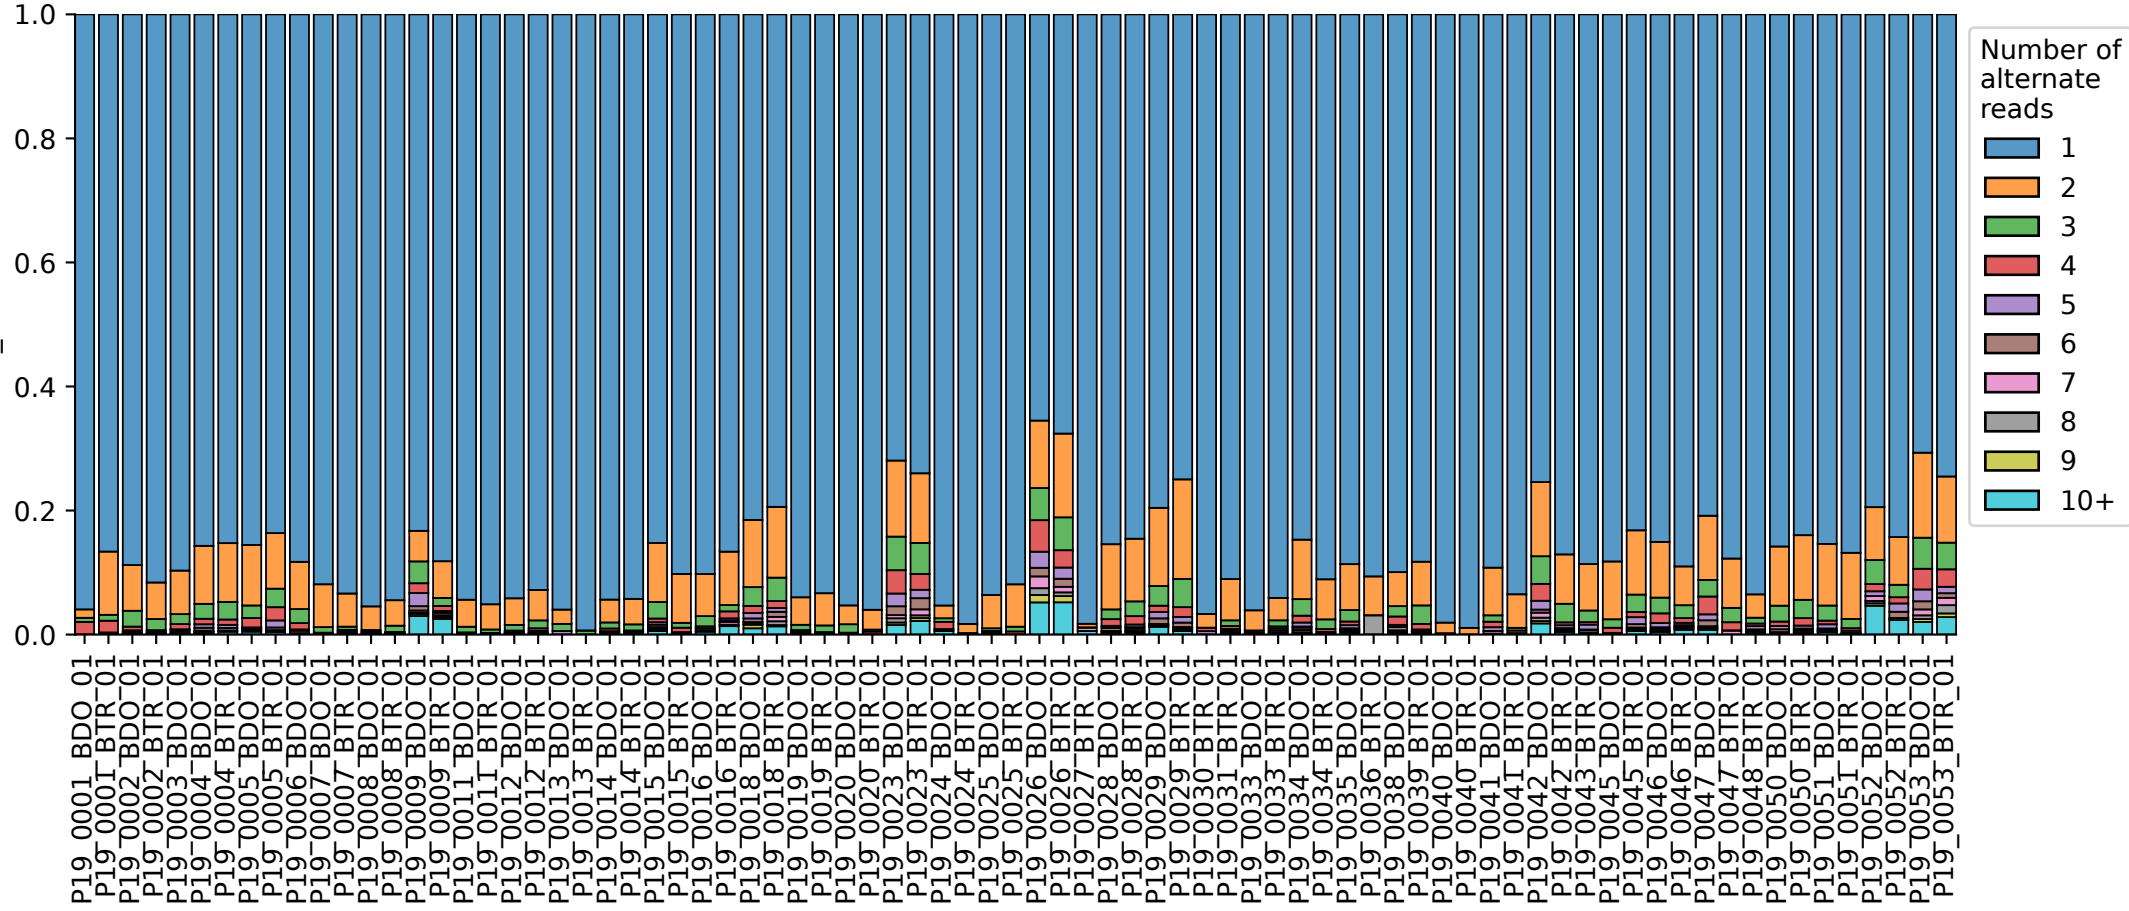

Plotting mutations per canonical_SYMBOL colored by MUTTYPE (Plot 2/2)

Plotting mutations per canonical_SYMBOL colored by MUTTYPE (Plot 2/2)

Proportion of mutations with
alternate reads count of N

Proportion of mutations with
alternate reads count of N
